After body assembly, place 3 in the “center” of the back and sew the rest around those. Only sew the Dc part to the body so that the leaves can stand up.

Eyes

This bulbasaur is happy eyed, however if you choose to have your bulba awake you can use this template to cut the whites of the eye and then the

iris of the eye. Depending on the hook you use you may have to scale it up or down to size.

Assembly

Sew head to body making sure that both the body and head lay flat on the work surface. Add legs and arms next, and ears last. Pin the leaves into place before sewing to make sure you get a good placement.

Cut eyes and diamond-ish shaped spots out of felt and either glue or needle felt them to bulbasaur in different spots around the body. Embroider white claws on to the feet and use black to embroider nose and mouth on to face.

And with that you are done! CONGRATS!

Watermelon

Starting with light green Ch 11

R1: Sc back along the chain (10) ch 1 turn

R2: Sc 10 in the front loop only (10) switch to **dark green** Ch 1 turn

**Carry the light green along the back side and make sure to crochet over it.*

R3: Sc 10 in the front loop only (10) switch back to **light green** drop dark
do not carry it along the next row.

Repeat R1-R3 6 times for a total of 18 rows. FO Dark green. Cut Light Green with a LONG tail.

With yarn needle sew R1 to R18.

Weave the yarn through the bumps on the sides of the stitches and pull tight to close one end of the watermelon.

Bring the yarn back to the other side of the watermelon by sewing under the light green stitches of the nearest light green round. Make sure not to pull too tight or the yarn will pucker making the melon misshaped.

Stuff the melon with poly fil. Using the same method as the first end sew closed the open end of the watermelon. Pull to close.

Use the rest of the yarn to sew to the body of Bulbasaur after you have it's body sewn together.

Eyes

This bulbasaur has safety eyes, however if you choose to have your bulba awake you can use this template to cut the whites of the eye and then the iris of the eye from colored felt. Depending on the hook you use you may have to scale it up or down to size.

Assembly

Sew head to body making sure that both the body and head lay flat on the work surface. Add legs and arms next, and ears last. Pin the melon into place before sewing to make sure you get a good placement.

Cut eyes and seed shaped spots out of felt and either glue or needle felt them to bulbasaur in different spots around the body. Embroider white claws on to the feet and use black to embroider eyes (if sleeping) nose and mouth on to face.

And with that you are done! CONGRATS!

Cactus

Before you start, figure out if you'd like the cactus to be pokey. If you do skip to Pokey section **after** ROW 17

Starting with light green Ch 11

R1: Sc back along the chain (10) ch 1 turn

R2: Sc 10 in the front loop only (10) Ch 1 turn

Repeat R2 for a total of 17 rows. Cut Light Green with a LONG tail.

Skip to pokey section now if you want spikes

(Non-Pokey Cactus) With yarn needle sew R1 to R17.

Weave the yarn through the bumps on the sides of the stitches and pull tight to close one end of the cactus.

Bring the yarn back to the other side of the cactus by sewing under the stitches of the nearest round. Make sure not to pull too tight or the yarn will pucker making the cactus misshaped.

Stuff the cactus with poly fil. Using the same method as the first end sew closed the open end of the plant. Pull to close.

Use the rest of the yarn to sew to the back of Bulbasaur after you have it's body sewn together.

POKEY Cactus

Figure out what side you will have facing out. Once you do, take fishing line and cut some 2 inch pieces. Tie a knot in the center of each 2 inch piece.

Poke through the crochet piece from the wrong side out to the right side.

Add a VERY small amount of hot glue to the knot so it won't go through the

yarn. Sew the cactus together using instructions above. Afterwards you can trim back the “spikes”

Eyes

Use this template to cut eyes out of felt. Cut the whites of the eye and then the iris of the eye. Depending on the hook you use you may have to scale it up or down to size.

Assembly

Sew head to body making sure that both the body and head lay flat on the work surface. Add legs and arms next, and ears last. Pin the cactus into place before sewing to make sure you get a good placement.

Cut eyes out of felt if you choose awake bulbasaur and either glue or needle felt them to bulbasaur. Embroider white claws on to the feet and use black to embroider eyes (if sleeping) nose and mouth on to face.

Pumpkin

Before you start, figure out if you'd like the pumpkin as a jack-o-lantern or plain. If you would like a Jack-o-lantern please skip down.

Option 1: Plain Pumpkin, Starting with orange Ch 11

R1: Sc back along the chain (10) ch 1 turn

R2: Sc 10 in the front loop only (10) Ch 1 turn

Repeat R2 for a total of 17 rows. Cut yarn with a LONG tail.

Weave the yarn through the bumps on the sides of the stitches and pull tight to close one end of the pumpkin.

Bring the yarn back to the other side of the pumpkin by sewing under the stitches of the nearest round. Make sure not to pull too tight unless you want a misshapen gourd.

Stuff the pumpkin with poly fil. Using the same method as the first end sew closed the open end of the plant. Pull to close. Run tail through the center points a few times to give it a more pumpkin like shape.

Use the rest of the yarn to sew to the back of Bulbasaur after you have it's body sewn together.

Option 2: Jack-o-lantern with orange

R1: MC, 6 sc (6)

R2: Inc in each stitch (12)

R3: *sc, Inc* repeat around (18)

R4-9: sc in each stitch (18 sc for 6 rounds)

R10: *sc, dec* repeat around (12)

Stuff to a med firmness

R11: dec in each (6) FO leaving a very long tail

With yarn needle close up hole. Run the yarn up along the side of the pumpkin and down through the center of R1 and out through the center of R11. repeat until you have 5-6 sections and make sure to tighten up after each pass. This will flatten the pumpkin a little and give it more pumpkin shape. Sew to body of Bulbasaur with round 11 facing down towards the body.

With Black felt, cut out a jack-o-lantern face and glue or needle felt it to the pumpkin. You can also use embroidery floss to embroider a face onto the pumpkin.

Eyes

Use this template to cut eyes out of felt. Cut the whites of the eye and then the iris of the eye. Depending on the hook you use you may have to scale it up or down to size.

Assembly

Sew head to body making sure that both the body and head lay flat on the work surface. Add legs and arms next, and ears last. Pin the pumpkin into place before sewing to make sure you get a good placement.

Cut eyes out of felt if you choose awake bulbasaur and either glue or needle felt them to bulbasaur. Embroider white claws on to the feet and use black to embroider eyes (if sleeping) nose and mouth on to face. If doing a grey bulbasaur you can add black stitches around the body to give it more of a halloween look.
