## **Assembly**

Place back head inside of the hood. For the triangle and square heads you will place the black head with the MC end facing up, for the circle head you will place the black

head with the MC facing you. The reason for this is that the circle created by your single crochets will help guide you in making the circle symbol on the face.

\*Using the pink tail left from the hood sew around the head to tack it into place. Pin head to body and sew. Pin arms to the sides of the body and sew into place.

Final touches: use black yarn to run the center line up the suit. For Square and Triangle I used yarn to embroider on the details but you can use felt sheets, glued or needle felted on to the black face area. For circle I used a scrap of white yarn and pinned it along round 3 of the black head piece and then needle felted it into place. You can also use felt and glue for this if you choose too or embroider on the circle.
