Covid Guidelines

June 16, 2021

Riverside County lifted all their guidelines for Covid. The new directive is if you are vaccinated, you do not need a mask. If you are not vaccinated, you do need a mask. But no one is checking. It is each person's right to be vaccinated or not. Several of our members openly state they will not be vaccinated and do not plan on being vaccinated. Therefore, everyone is responsible for themselves. A mask is required on public transportation.

Rainbow issued Virus Guidelines earlier this year to minimize the risk of the virus for our members. Rainbow also requires that members must quarantine for two weeks upon returning to the park from any overnight absences. During the quarantine members may use the streets, pool, spas, outside shower, rose garden, and lobby (abc mail slots) using proper protective practices - masks, social distancing, etc.; but **not** the common areas which include the office, clubhouse area, billiard room, women, and men's restrooms. To accommodate our members, we have made the laundry room available if a mask is worn and only one person at a time in the laundry room itself.

Rainbow Spa initiated three simple actions to keep our members protected -- **Wash hands** regularly **Cover face** in enclosed spaces **Make space** social distancing 6 feet -- as recommended by Riverside County Health.

It is very contagious, and we are probably fighting a losing battle but must try.

When using any common area please clean up when leaving. This is especially true in the Laundry Room when it comes to pet hair left in washers. When removing clothes from the front loaders, please wipe out the hair left on and in the large black rubber ring where the door closes.

We have a wonderful park with what we believe is an awesome membership. Just trying to stay as safe as possible.
