

## HEAVY DUTY CATTLE TROUGHS – Product Code: FTHDCT

### APPLICATION

These large purpose made cattle troughs have been designed to suit adult cattle and will stand up to the rigours of feeding heavy animals.

They are ideal for delivering bulky mixed feed, grain or pellets.

The troughs are easily movable and have tow lugs at either end. Simply attach a rope and slide them to a fresh location. They have a sleigh style subframe making this relocation process easier.

### Features of these feeders:

- Fully galvanised finish
- Can be stacked and lifted with tractor forks
- Tow points
