

PRODUCT INFORMATION BROCHURE

ewe lift ATV TRAILER – 5' x 4'

Issued April 2023

Product code: TRATVUL5X4G

Rec Retail \$4,286.00 inc GST

APPLICATION

This handy 5' x 4' ATV trailer has been designed to overcome the job of lifting heavy sheep or calves into the back of your ute or trailer.

The trailer is lowered and raised using the lifting arm or by using the winch attached to the drawbar. The winch allows even the heaviest ewes to be lifted with ease and avoid back strain that comes about from heavy lifting.

Mothers and young lambs can be kept divided by an internal gate. Great for taking heavy rams to their allocated paddock.

FEATURES

Features of these trailers:

- Fully galvanised finish
- Rear sliding gate
- Rear swing gate as optional
- Internal dividing gate
- Lifting winch
- Front tool box
- Covered front panel
- Single axle 6 ply tyres
