"I'm on Farmbot every day. I've caught leaks, I've caught overflowing tanks. It's just brilliant. It's so simple."

S Bogle, QLD

Farmbot is dedicated to managing water for livestock. It's what we do best.

Farmbot provides graziers with the tools to monitor on-farm water ecosystems delivering near real-time reporting on water trends and consumption with alerts to your mobile and email.

Pump Control with Remote Switch

Extend the lifespan of your pump, reduce wear and tear on your vehicle, and save countless hours of your precious time with Farmbot Pump Control.

Farmbot Monitor + Pump Control with Remote Switch

Includes: Farmbot Monitor, Remote Switch Box, 12 m Control Box Cable and Splitter Box.

\$1,710 (exc. GST)

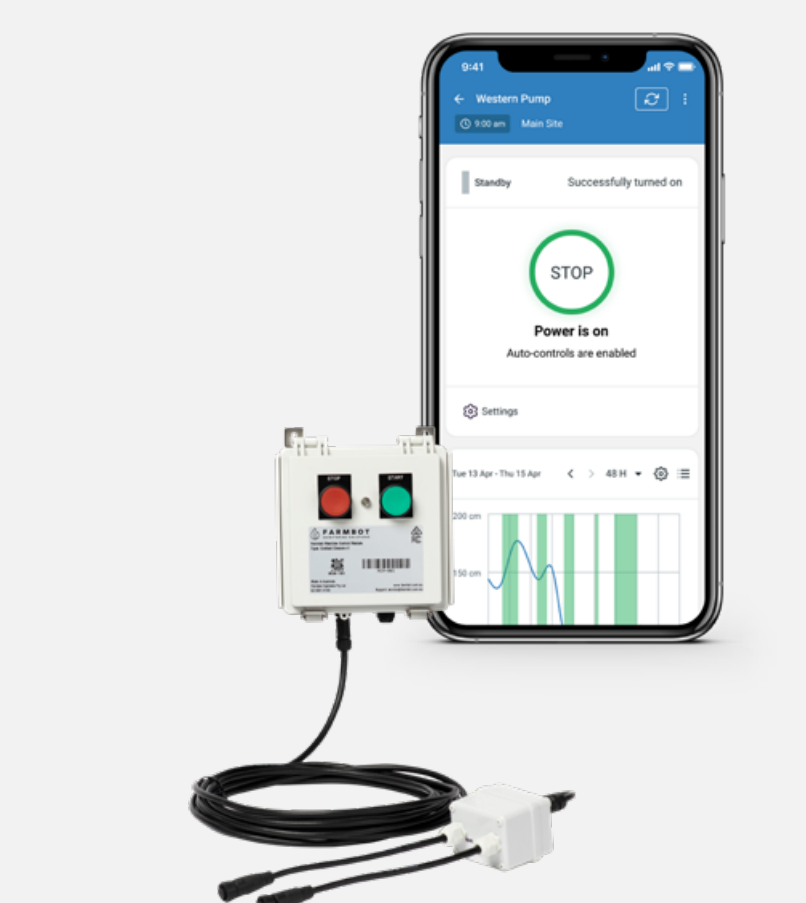

Annual Subscription Fee:
\$456 (exc. GST)

Key features

- Automate your pumps to start/stop based on tank levels, no more guesswork or unreliable timers.
- Remotely stop/start your pumps from anywhere.
- Real-time alerts when the pump stops and starts or if there is an error.

Tech specs

- Works with solar, diesel and mains powered pumps.
- Works with pumps that have either a Normally Open or Normally Closed state.
- Sensing Controller Feedback - detect when the pump isn't working.
- Water resistant when lid is properly closed and sealed.

Water Level Monitor

Save on labour costs, fuel and time spent on manual water runs with Farmbot. View trends and get alerts within minutes if there is an issue.

Farmbot Monitor + Water Level Sensor

\$1,290 (exc. GST)

Annual Cellular Subscription Fee:
\$342 (exc. GST)

Annual Satellite Subscription Fee:
\$456 (exc. GST)

Key features

- Real-time text and/or email alerts when water level is low, high or rapidly falling.
- Enables savings on labour and fuel costs.
- Improve decision making and conservation about your tank supply.
- 24/7 hypersensitive accurate level readings.

Tech specs

- Works anywhere - with satellite or cellular.
- Corrosion resistant - built from ceramic and titanium.
- Highly accurate hydrostatic sensor (± 2 cm).
- 15-min installation and 2-year warranty.
- Event-driven transmissions.
