

The Disciplemaking Genius of Jesus Check-In...

The discipling genius of Jesus is discipling friendships that multiply. Share your (TW + K4) x D3 stories with each other. Haver at it.

TW = Time With

Not "to" or "for" people but *with* people.

Who might God be nudging you to get more time with? Less time with?

Whose responsibility is it to initiate "TW" others? How do you know who to pull close?

When you get time together, does it feel more like "to" or "for" rather than "with"? How can you move toward "withness"?

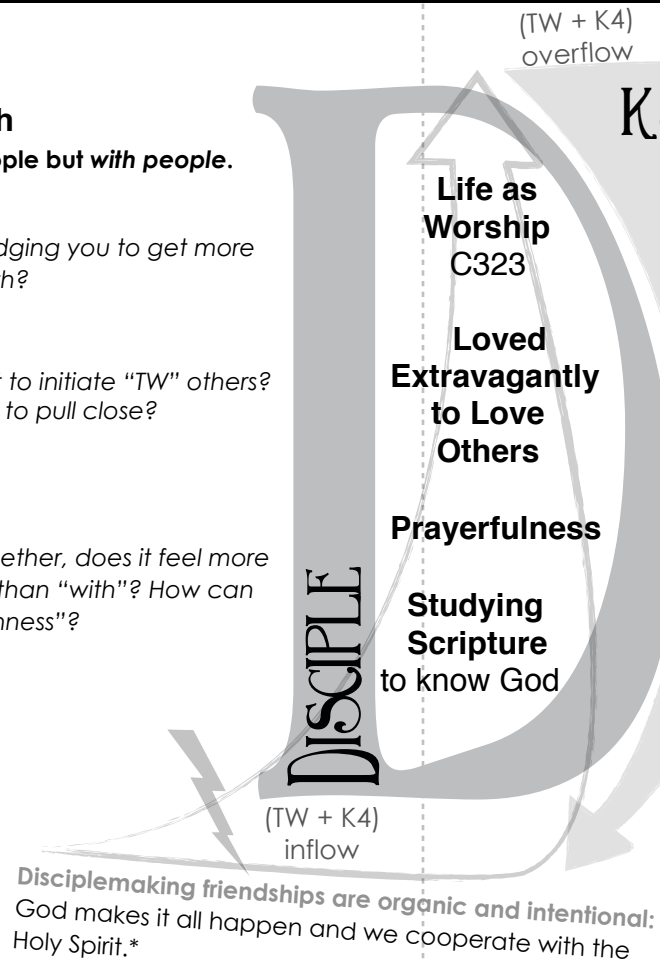

K4 = Kavanah

God's presence and power help us to hit God's Kavanah bullseye.

With whom would you like a more Kavanah-filled friendship? How might you initiate a move toward K4?

Evaluate the K4 of a current friendship. Where is that friendship strong? Weak? Opportunities for growth?

It is okay if one of the four Kavanah intentionalities is missing in your discipling friendship? Explain.

Discipling friendships are organic and intentional: God makes it all happen and we cooperate with the Holy Spirit.*

(TW + K4) x D3: Multiply

D3 = Three Generations of (TW + K4) = Discipling Friendships that Multiply

We haven't made disciples like Jesus until those we disciple make more disciples.

Name a friend who is currently helping you follow Jesus. How? Who is helping the person who is helping you? (If you don't know, find out.)

Name a friend you are currently helping to follow Jesus. How exactly is God using you to inflow Kavanah into this friendship?

Tell a story about someone you are helping to love God and people who is now helping others to love God and people.
