

Paula Geiger

Go ahead! You know you want to!

Have some fun and make an origami bee following the steps below and **get busy living!**

Step 1: Use 3x3 paper or Post-it® note. Fold in half along diagonal middle.

Step 2: Fold in half and unfold.

Step 3: Flip over and fold up the bottom corners so the points meet at the triangle peak.

Step 4: Fold the two corners back down at a slightly wider angle than 45°.

Step 5: Fold down the top section into thirds with a slight gap from the middle..

Step 6: Fold back the sides to form the bee body.

Step 7: Fold the tips of the wings so the edge is less angular.

Step 8: Flip over and fold triangle tips parallel to edge to create feet.

Step 9: If paper is white, use a Sharpie® marker to color the head and stripes on the body.

Step 10: Get busy living!
