

## *3D Natural Wall Finish*

Fast Connect : brings a revolution in traditional interior wall decorative materials, which is made from different kinds of natural & synthetic textile fiber such as paper pulp, wood fiber, textile fiber, sisal, jute, grass & leaves.

This is a Wall coating which is also named as wall decor & wall finish which is similar to a natural wall paper but is completely different from the traditional wall paper.

It is a new environment-friendly decoration material with simple, easy & do-it-yourself application characteristics.

After being rolled on the wall surface, it produces a unique sense of vein & (3D) three-dimensional relief, an expression of individual taste of living.

We import the same under our brand “Kadat-Designs” from Arnsberg based company, established in 2007, a leading manufacturer of wall coating with two production bases (Germany & China).

The company has more than one thousand salesmen staff, with a huge investment for research, design & production which is committed to develop practical, artistic, water-proof & fashionable items.

The same has obtained “Quality, Service, & Prestige AAA Unit Awards”, “Green Environmental protection Products”.

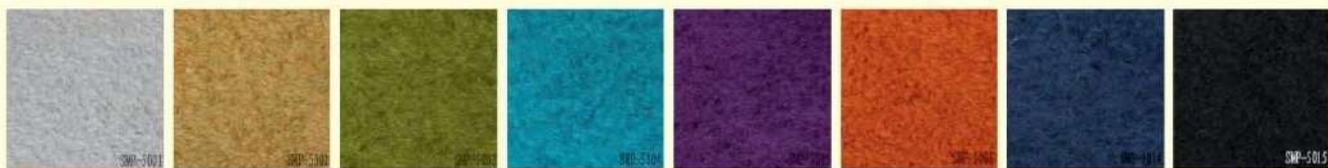

All products have passed standard inspection of “Green Environmental protection Test” & “Fire-proof Test”.

Fast Connect Services Pvt. Ltd. is committed to provide global products through imports which are practical, artistic, fashionable products for complete home conception & to create a comfortable life for Indian Customers.
