

Film Crafty and Catering Information

Thank-you for your interest in our catering and crafty services. We work very hard to find top quality food service solutions and while meeting budgetary constraints. We do realize everyone is on very tight budgets these days and the steep increases being realized in the entire food industry do not help. That said we do our best to find solutions that work.

Pricing is somewhat affected by the number of meals required per day, the number of guests per meal, food serving locations and the service level required. To give you specific pricing we require specific information, however, we can give you a list of average costs. They may be slightly higher or lower depending on your specific requirements. Look at the pricing below and then we can discuss more specifics to your requirements to see what can be done within your budget.

Pricing includes all labour for preparation, delivery* (within city limits), set-up, serving and catering equipment and disposable dinnerware. Labour can be separated out for your budget purposes, if necessary, and is generally 35% to 45% of the listed pricing.

We get rave reviews on our catering and have been told numerous times our crafty offering is outstanding. We would love to be of service if we can!

Crafty

We can design your Crafty items offering to best fit your people and their needs. These are billed on an **actual usage**, that is, we inventory the items out and back in and then bill for what is used. We provide a daily usage inventory and cost, so you are in control of the crafty expense daily. ***Pricing includes all labour for preparation, delivery (in city limits), set-up, display equipment, ice and re-stocking through the day. Labour can be separated out for your budget purposes, if necessary, and is generally 35% to 45% of the listed pricing.***
