رؤية 2030

VISION  
2030

المملكة العربية السعودية  
KINGDOM OF SAUDI ARABIA

## ABOUT COMPANY

- **HQ: Jubail, Saudi Arabia**
- **Founded: 2015 (legacy expertise since 2011)**
- **Industries Served: 10+ (Petrochemicals, Pharma, Agro, Construction, Manufacturing, EPCs, etc.)**
- **Global Markets: GCC, Asia, Africa, Europe**

**AxoraChem Global Trading Co. Ltd.**, headquartered in **Jubail, Saudi Arabia**, is a dynamic chemical trading and industrial supplies company dedicated to powering industries with reliable supply solutions. Our team brings with it a legacy of expertise **built since 2011**, serving clients across multiple industrial sectors with **trust, transparency, and consistency**. Our capabilities extend beyond **chemicals** into essential **industrial materials**, supporting operational continuity for plants, EPC contractors, and manufacturing units across the region.

We operate with a clear vision: to align with **Saudi Arabia's Vision 2030**, strengthening industrial growth locally and globally through sustainable, high-quality chemical sourcing. Our network connects producers and consumers seamlessly across the **Middle East, Asia, Africa, and Europe**. This includes both chemical supply chains and the industrial materials required for **maintenance, safety, and project execution**.

We don't just trade chemicals—we empower industries. Through chemicals and industrial supplies, supported by global sourcing strength, compliance with international standards, and a deep understanding of operational needs, **AxoraChem delivers reliability and long-term value**.

## OUR IMPACT

At **AxoraChem**, we serve a wide spectrum of industries, supplying critical raw materials that power manufacturing, innovation, and everyday life. In addition to chemical supply, **AxoraChem** supports factories, EPCs, and industrial plants with essential materials ranging from safety equipment and tools to mechanical, electrical, and maintenance supplies.

Our product portfolio supports:

- Formaldehyde, Resins, Paints & Polymers → plywood, laminates, coatings, plastics, adhesives.
- Pharmaceuticals & Healthcare → APIs, intermediates, disinfectants, sanitizers.
- Energy & Automotive → biodiesel blending, fuel additives, coolants, lubricants, DEF/AdBlue.
- Textiles & Packaging → polyester fibers, PET bottles, fabrics, industrial resins.
- Soaps, Detergents & Personal Care → caustic soda, surfactant intermediates.
- Pulp, Paper & Printing → inks, coatings, adhesives.
- Fertilizers & Agrochemicals → urea, sulphur, phosphoric acid.
- Construction & Rubber → sealants, adhesives, tyres, specialty coatings.
- Electronics & Specialty Oils → cleaning solvents, lubricants, transformer oils.
- Food & Beverages → food-grade phosphoric acid and related inputs.

Through this diversified industry presence, **AxoraChem** positions itself not just as a trader, but as a partner in industrial progress—driving efficiency, sustainability, and growth across value chains.

# VISION & MISSION

## Vision

To become a **trusted global partner in chemical trading and industrial supplies**, driving industrial growth and innovation while contributing to **Saudi Arabia's Vision 2030** and a more **sustainable, connected world**.

## Mission

- To deliver **high-quality chemical products** with reliability, transparency, and competitive value.
- To build **long-term partnerships** across industries including **petrochemicals, pharmaceuticals, textiles, energy, agriculture, and construction**.
- To ensure **compliance and sustainability**, aligning with global best practices and environmental responsibility.
- To empower clients with **efficient supply chain solutions** that **support growth, innovation, and industrial transformation**.
- To supply **essential industrial materials** that support operational continuity, safety, and project execution across major industries.
- To support Saudi Arabia's strategic sectors by delivering compliant, **high-quality materials** to Aramco, SABIC, Royal Commission, EPC contractors, and private industries.

# OUR CORE VALUES

At **AxoraChem**, our values are the foundation of everything we do. They guide our decisions, shape our partnerships, and define how we deliver excellence to industries worldwide. Rooted in integrity, sustainability, and innovation, these principles drive us forward and ensure we create lasting impact for our clients, partners, and communities.

## Integrity & Transparency

We believe in honest, clear, and ethical business practices, ensuring trust in every transaction.

## Reliability & Commitment

Our partners count on us for consistent quality, timely delivery, and dependable service.

## Innovation & Growth

We embrace new ideas, technologies, and approaches that strengthen industries and open new opportunities.

## Sustainability & Responsibility

We align with global environmental goals, promoting safe, sustainable, and responsible sourcing and trading.

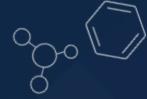

## Global Partnerships

We connect local strength with international reach, building long-term collaborations across markets.

## Excellence in Service

We go beyond trading — we provide solutions that empower industries to achieve more.

# OUR PRODUCTS

## A. CHEMICAL TRADING DIVISION

### Methanol

Methanol (CH<sub>3</sub>OH) is a clear, volatile liquid widely used as a basic feedstock in chemical production.

- **Grades/Forms:** Industrial grade (99.85% min purity), available in bulk liquid form.
- **Applications:**
  - Formaldehyde & Resins (plywood, laminates, adhesives)
  - Paints & Coatings
  - Plastics & Polymers
  - Pharmaceuticals (API intermediates)
  - Energy sector (biodiesel blending, fuel additives)

### Monoethylene Glycol (MEG)

A colorless, odorless, syrupy liquid derived from ethylene oxide, mainly used in polyester and antifreeze production.

- **Grades/Forms:** MEG industrial grade, packed in bulk tankers/IBCs.
- **Applications:**
  - Textiles & Polyester Fiber (garments, fabrics)
  - PET Bottles & Packaging
  - Automotive (antifreeze, coolants)
  - Industrial resins & adhesives

“

*“Delivering quality chemicals that power  
industries and innovation.”*

**AxRAChem**

## Caustic Soda (Flakes/Liquid)

Caustic Soda (Sodium Hydroxide, NaOH) is a highly versatile alkali used in numerous industries.

- **Grades/Forms:**

- Flakes: 98-99% purity, white solid form
- Liquid: 32% or 50% solution

- **Applications:**

- Soap & Detergent manufacturing
- Pulp & Paper mills
- Water Treatment & Effluent plants
- Aluminum & Textile processing
- Chemical intermediates

## Urea (Granular/Prilled)

A nitrogen-rich chemical used primarily in agriculture and industrial formulations.

- **Grades/Forms:**

- Granular: 46% Nitrogen, larger particle size
- Prilled: 46% Nitrogen, smaller particle size, quick-dissolving

- **Applications:**

- Fertilizer production & blending
- Resin & Adhesives manufacturing
- Automotive (DEF/AdBlue)
- Pharmaceuticals & laboratory use

## Base Oils (Group I & II)

Base oils are refined petroleum products used as the foundation for lubricants.

- **Grades/Forms:**

- Group I: Solvent refined, higher sulfur content
- Group II: Hydroprocessed, higher purity, better oxidation stability

- **Applications:**

- Lubricant blending (engine oils, gear oils, greases)
- Automotive & Industrial lubricants
- Specialty oils (transformer oil, process oils)

## Toluene

A clear, water-insoluble liquid aromatic hydrocarbon derived from petroleum.

- **Grades/Forms:** Industrial grade, min 99.5% purity.
- **Applications:**
  - Paints & Coatings
  - Adhesives & Sealants
  - Printing Inks
  - Rubber & Tyre manufacturing

## Xylene

### (Mixed/Ortho/Para)

A group of aromatic hydrocarbons used as solvents and intermediates.

- **Grades/Forms:**
  - Mixed Xylene
  - Ortho-Xylene
  - Para-Xylene
- **Applications:**
  - PET & Polyester production
  - Paints & Coatings
  - Plastics & Polymers
  - Agrochemicals

“

*“Precision, purity, and performance in every drop.”*

## Isopropyl Alcohol (IPA)

A colorless, flammable solvent widely used for cleaning and disinfection.

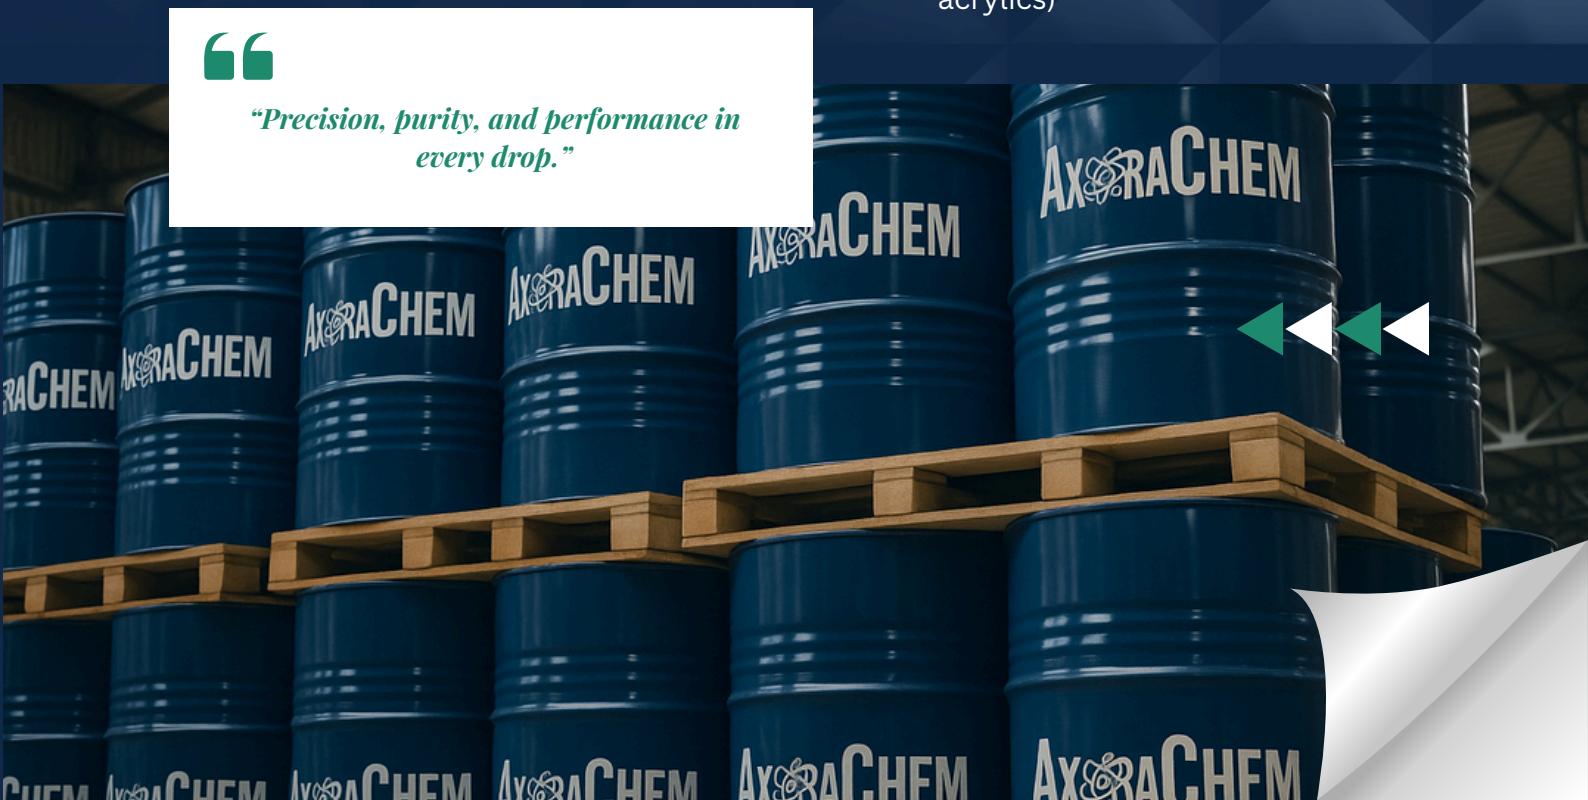

- **Grades/Forms:** 99% or 70% purity, bulk and packed forms.
- **Applications:**
  - Pharmaceuticals (disinfectants, sanitizers, APIs)
  - Cosmetics & Personal Care
  - Electronics cleaning
  - Printing inks & coatings

## Acetone

A fast-evaporating, highly miscible solvent used in chemical synthesis.

- **Grades/Forms:** Industrial & pharma grade, min 99.5% purity.
- **Applications:**
  - Pharma intermediates
  - Paints & Coatings
  - Adhesives & Sealants
  - Plastics manufacturing (PMMA, acrylics)

## Methyl Ethyl Ketone (MEK)

A strong, fast-evaporating solvent used in adhesives and coatings.

- **Grades/Forms:** Industrial grade, min 99.5% purity.
- **Applications:**
  - Paints & Coatings
  - Construction Adhesives
  - Printing Inks
  - Rubber & Tyre sector

## Phosphoric Acid

A clear, odorless liquid used in fertilizers, food, and industrial cleaning.

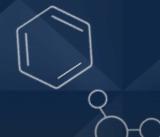

- **Grades/Forms:**
  - Food grade: 85% solution
  - Industrial grade: 75-85% solution
- **Applications:**
  - Fertilizer blending plants
  - Food & Beverage processing
  - Pharmaceuticals (intermediates)
  - Industrial cleaning agents

## Sulphur

A yellow crystalline solid widely used in fertilizer and industrial chemistry.

- **Grades/Forms:** Available in granular, pastille, and lump forms.
- **Applications:**
  - Fertilizer producers
  - Sulphuric Acid manufacturing
  - Rubber & Tyre industry
  - Detergents

“

*“Chemistry is at the heart of modern progress. At AxoraChem, we ensure that heart beats stronger — by providing trusted solutions, fostering partnerships, and driving industrial growth across the globe.”*

## B. INDUSTRIAL SUPPORT SERVICES (TRADING DIVISION)

### Safety & PPE Supplies

- SCBA
- Firefighting equipment
- Helmets, gloves, goggles
- Fall protection
- Confined-space safety kits

### Mechanical & Electrical Consumables

- Valves, flanges, fittings
- Industrial hoses
- Gaskets, bolts, nuts
- Cables, lighting
- Switchgear & panel accessories

### Construction & Maintenance Materials

- Cement, sand, blocks
- Steel pipes, plates, beams
- Coatings & industrial paints
- Welding consumables
- Insulation materials

## Tools & Industrial Consumables

- Power tools & hand tools
- Fasteners
- Lubricants & greases

## HVAC & Mechanical Parts

- Filters
- Motors
- Pumps & spare parts
- HVAC consumables

## Logistics & Site-Ready Materials

- Pallets, drums, IBCs
- Packaging supplies
- Signages & barricades
- Temporary fencing

## General Factory & Plant Supplies

- Cleaning chemicals
- Industrial detergents
- Disinfectants
- Mechanical seals
- Bearings & belts

# OUR SERVICES

At **AxoraChem**, we go beyond trading – we deliver end-to-end chemical solutions built on reliability, intelligence, and sustainability.

## 1. Global Sourcing & Procurement

Direct access to leading global producers ensures consistent quality and reliable supply – through both long-term contracts and spot deals, fully compliant with international standards (ISO, REACH, etc.).

## 2. Supply Chain & Logistics

We manage the complete chemical supply chain – from bulk shipping and customs documentation to warehousing and multimodal transport – ensuring safe, on-time delivery worldwide.

## 3. Market Intelligence & Insights

Our team monitors global price trends, forecasts demand-supply shifts, and advises clients on optimal procurement timing and strategy for maximum value.

## 4. Custom Packaging & Distribution

From tankers and flexi-tanks to IBCs and drums, we customize packaging and labelling to client needs, maintaining safety and regulatory compliance across all shipments.

## 5. Sustainability & Compliance

We align operations with global HSE and environmental standards – promoting eco-friendly sourcing, transparent traceability, and client support in meeting compliance goals.

## 6. Strategic Partnerships

We build enduring alliances across the value chain – connecting manufacturers, distributors, and end-users to develop integrated, industry-specific solutions.

## 7. Value-Added Customer Support

Clients benefit from dedicated account management, flexible terms, technical support, and continuous engagement beyond every transaction.

# GLOBAL REACH

## Why Saudi Arabia?

Positioned at the **heart of global trade routes**, Saudi Arabia offers **AxoraChem** unparalleled connectivity to East-West supply chains. Leveraging world-class ports in Jubail and Dammam, along with strong logistics infrastructure, we ensure:

- Seamless import & export operations
- Cost-effective and timely deliveries
- Direct access to both producers and buyers
- Saudi Arabia also hosts world-leading industrial zones, enabling **AxoraChem** to support local plants, EPC contractors, and maintenance projects with essential industrial materials.

At **AxoraChem**, We believe that chemicals and industrial materials are not just commodities, but the lifelines of industries worldwide. From our headquarters in **Jubail, Saudi Arabia**, we serve as a bridge between producers and consumers across continents.

- **Middle East & GCC** – Strong presence in Saudi Arabia, UAE, Oman, and Bahrain, supplying chemicals and industrial materials to key sectors such as petrochemicals, oil & gas, construction, and manufacturing.
- **Asia** – Active trading with India, China, South Korea, and Southeast Asia, supporting textiles, packaging, and pharmaceuticals.
- **Africa** – Supplying fertilizers, industrial chemicals, and consumer goods manufacturers across North and East Africa.
- **Europe** – Partnerships with distributors and industrial buyers in Germany, Italy, and Eastern Europe for specialty chemicals and intermediates.

## OUR TRADING STRENGTHS

- Diverse sourcing base across **Asia, Middle East, and Europe**
- Multimodal logistics: sea, land, and air
- Established partnerships with **manufacturers, distributors, and end-users**
- Ability to scale from bulk shipments to tailored regional supply
- Strong local supply chain for **industrial materials, supporting maintenance, shutdowns, and project requirements**

At **AxoraChem**, our **global reach** is matched by our **local strength** – we bring international markets to our clients while ensuring personalized service rooted in trust.

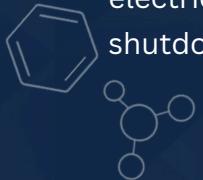

# INDUSTRIES WE SERVE

At **AxoraChem Global Trading Co. Ltd.**, our products are the essential building blocks driving innovation across key global sectors. From energy and infrastructure to healthcare and consumer goods, we deliver chemical solutions and industrial materials that fuel progress, reliability, and sustainability.

## Key Sectors We Support

- **Petrochemicals & Energy:** Methanol, MEG, base oils, and solvents supporting refining, fuel additives, and lubricants.
- **Pharmaceuticals & Healthcare:** Acetone, IPA, methanol, and phosphoric acid used in APIs, disinfectants, and formulations.
- **Paints, Coatings & Adhesives:** Toluene, xylene, MEK, and acetone for industrial coatings and surface protection.
- **Textiles & Packaging:** MEG, xylene, and PET resins for fibers, fabrics, and sustainable plastic packaging.
- **Agriculture & Fertilizers:** Urea, sulphur, and phosphoric acid promoting food security through responsible farming.
- **Soaps, Detergents & Personal Care:** Caustic soda, sulphur, and IPA for hygiene, cleaning, and personal care.
- **Construction & Infrastructure:** Specialty resins, sealants, and coatings for durability and performance.
- **Rubber & Tyre Manufacturing:** Toluene, MEK, and sulphur enabling high-quality rubber and polymer production.
- **Electronics & Specialty Applications:** IPA, solvents, and lubricants for precision cleaning and manufacturing.
- **Pulp, Paper & Printing:** Caustic soda, solvents, and resins for ink and paper processing.
- **Food & Beverages:** Food-grade phosphoric acid and additives ensuring quality and safety in global F&B industries.
- **Industrial Plants & EPC Projects:** Supply of safety equipment, mechanical and electrical consumables, tools, and maintenance materials for plant operations and shutdown activities.

# COMPLIANCE & SUSTAINABILITY

## Regulatory Compliance

- Adherence to **global standards** including REACH (Europe), OSHA (USA), and GHS guidelines.
- Strict compliance with **Saudi Arabian regulations**, customs, and port authority requirements.
- Transparent documentation for every shipment, ensuring **traceability and accountability**.
- Partnerships only with certified producers and logistics providers who meet **ISO and HSE standards**.
- Compliance in sourcing and supplying industrial materials, ensuring all products meet relevant **Saudi Aramco, SABIC, and Royal Commission** specifications where required.

## Sustainability Commitment

- **Eco-friendly sourcing:** prioritizing producers who adopt greener technologies and sustainable practices.
- **Energy efficiency:** optimizing logistics and supply chains to minimize emissions and resource waste.
- **Waste reduction:** supporting clients with solutions that encourage recycling, recovery, and safe disposal.
- **Sustainable agriculture:** through fertilizers, sulphur, and phosphoric acid that help improve food security responsibly.
- **Quality Control:** Promotion of durable, safety-certified industrial products that reduce replacement frequency and environmental waste.

## Health, Safety & Environment (HSE)

At AxoraChem, safety is uncompromised.

We follow strict **HSE practices** in the **handling, storage, and transport** of all chemicals and industrial materials, ensuring **full protection** of people, assets, and the environment.

Only **certified safety products** are supplied through our Industrial Support Services division, with all materials meeting **international and Saudi HSE standards**.

AxoraChem

# WHY CHOOSE US

- **Trusted Sourcing** – direct access to certified global producers with consistent quality.
- **Dual Capability** – offering both chemical trading and industrial material supplies, supporting plants, EPC contractors, and manufacturing units.
- **Strategic Location** – headquartered in Jubail, Saudi Arabia, at the crossroads of global trade routes.
- **Industry Experience** – a team serving diverse industries since 2011, with proven knowledge and reliability.
- **End-to-End Solutions** – from procurement to packaging, logistics, and market insights – covering both chemical products and industrial materials.
- **Local Plant Support** – reliable supply of safety equipment, tools, mechanical/electrical consumables, and maintenance materials tailored to Saudi industrial requirements.
- **Commitment to Compliance** – international safety standards and environmental responsibility in every transaction.
- **Customer-Centric Approach** – long-term partnerships built on transparency, flexibility, and service excellence.

At AxoraChem, we are more than just a trading house – we are a trusted partner for industries worldwide.

## Future Outlook

At AxoraChem Global Trading Co. Ltd., our ambitions are global. Building on our strong foundation in Saudi Arabia, we are committed to expanding our chemical trading and industrial supplies network into new markets across the Americas, Eastern Europe & Central Asia, while deepening our presence in Asia, Africa, and Europe.

In alignment with Saudi Arabia's Vision 2030, our goal is to become a top-tier global chemical trading house by the end of this decade. We aim to achieve this by:

- Strengthening partnerships with producers and end-users worldwide
- Expanding our Industrial Support Services division to serve major Saudi industries, EPC contractors, and manufacturing plants.
- Enhancing digital supply chain solutions for greater efficiency
- Investing in sustainable practices that reduce environmental impact
- Expanding our product portfolio to meet the evolving needs of industries

At AxoraChem, we don't just look at today – we are building the **chemical and industrial supply solutions of tomorrow**.

# QUALITY • TRADE • COMPLIANCE

## Quality & Documentation

At **AxoraChem**, quality assurance is embedded into every transaction.

- We provide COA/MSDS for all shipments, ensure full batch traceability, and offer third-party inspections (SGS, BV, Intertek) when required.
- All safety equipment and industrial materials are sourced only from certified manufacturers meeting SASO, CE, EN, NFPA, and Aramco/SABIC specifications.

## Legal & Registrations

AxoraChem Global Trading Co. Ltd. is a registered company in the Kingdom of Saudi Arabia.

- Arabic Name: شركة أكسورا كيم جلوبال تريدينج المحدودة
- Commercial Registration (CR) No.: 7051913783
- VAT No.: 314276398100003

“

*“Precision, integrity, and excellence—  
sealed in every shipment.”*

## Trade Terms

- We offer flexible global trade terms, including EXW, FOB, CIF, and DDP.
- Payments can be made via TT or LC at sight.
- Lead times and MOQs are product-specific and customizable.
- Local deliveries for industrial materials within Saudi Arabia are available on a PO basis.

## HSE & Packaging

Safety and compliance are at the core of our packaging and logistics practices

- We use UN-approved drums, IBCs, and bulk packaging with proper GHS labeling, and provide clear storage and handling guidelines.
- All industrial supplies—including PPE, tools, and safety equipment—meet international and Saudi HSE standards and are delivered with required conformity certifications.
