رؤية
VISION
2030
المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

- **HQ:** Jubail, Saudi Arabia
- **Founded:** 2015 (legacy expertise since 2011)
- **Industries Served:** 10+ (Petrochemicals, Pharma, Agro, etc.)
- **Global Markets:** GCC, Asia, Africa, Europe

AXORACHEM

ABOUT COMPANY

AxoraChem Global Trading Co. Ltd., headquartered in **Jubail, Saudi Arabia**, is a dynamic chemical trading company dedicated to powering industries with reliable supply solutions. Our team brings with it a legacy of expertise built since 2011, serving clients across multiple industrial sectors with trust, transparency, and consistency.

We operate with a clear vision: to align with **Saudi Arabia's Vision 2030**, strengthening industrial growth locally and globally through sustainable, high-quality chemical sourcing. Our network connects producers and consumers seamlessly across the **Middle East, Asia, Africa, and Europe**.

We don't just trade chemicals—we empower industries. By combining sourcing strength, compliance with international safety standards, and a deep understanding of industrial needs, **AxoraChem** delivers value, reliability, and long-term partnerships.

OUR IMPACT

At **AxoraChem**, we cater to a wide spectrum of industries, supplying critical raw materials that power manufacturing, innovation, and everyday life.

Our product portfolio supports:

- Formaldehyde, Resins, Paints & Polymers → plywood, laminates, coatings, plastics, adhesives.
- Pharmaceuticals & Healthcare → APIs, intermediates, disinfectants, sanitizers.
- Energy & Automotive → biodiesel blending, fuel additives, coolants, lubricants, DEF/AdBlue.
- Textiles & Packaging → polyester fibers, PET bottles, fabrics, industrial resins.
- Soaps, Detergents & Personal Care → caustic soda, surfactant intermediates.
- Pulp, Paper & Printing → inks, coatings, adhesives.
- Fertilizers & Agrochemicals → urea, sulphur, phosphoric acid.
- Construction & Rubber → sealants, adhesives, tyres, specialty coatings.
- Electronics & Specialty Oils → cleaning solvents, lubricants, transformer oils.
- Food & Beverages → food-grade phosphoric acid and related inputs.

Through this diversified industry presence, **AxoraChem** positions itself not just as a trader, but as a partner in industrial progress—driving efficiency, sustainability, and growth across value chains.

VISION & MISSION

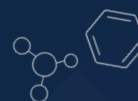

Vision

To become a trusted global partner in chemical trading, driving industrial growth and innovation while contributing to **Saudi Arabia's Vision 2030** and a more sustainable, connected world.

Mission

- To deliver high-quality chemical products with reliability, transparency, and competitive value.
- To build long-term partnerships across industries including petrochemicals, pharmaceuticals, textiles, energy, agriculture, and construction.
- To ensure compliance and sustainability, aligning with global best practices and environmental responsibility.
- To empower clients with efficient supply chain solutions that support growth, innovation, and industrial transformation.

OUR CORE VALUES

At **AxoraChem**, our values are the foundation of everything we do. They guide our decisions, shape our partnerships, and define how we deliver excellence to industries worldwide. Rooted in integrity, sustainability, and innovation, these principles drive us forward and ensure we create lasting impact for our clients, partners, and communities.

Integrity & Transparency

We believe in honest, clear, and ethical business practices, ensuring trust in every transaction.

Reliability & Commitment

Our partners count on us for consistent quality, timely delivery, and dependable service.

Innovation & Growth

We embrace new ideas, technologies, and approaches that strengthen industries and open new opportunities.

Sustainability & Responsibility

We align with global environmental goals, promoting safe, sustainable, and responsible chemical trading.

Global Partnerships

We connect local strength with international reach, building long-term collaborations across markets.

Excellence in Service

We go beyond trading — we provide solutions that empower industries to achieve more.

OUR PRODUCTS

Methanol

Methanol (CH_3OH) is a clear, volatile liquid widely used as a basic feedstock in chemical production.

- **Grades/Forms:** Industrial grade (99.85% min purity), available in bulk liquid form.
- **Applications:**
 - Formaldehyde & Resins (plywood, laminates, adhesives)
 - Paints & Coatings
 - Plastics & Polymers
 - Pharmaceuticals (API intermediates)
 - Energy sector (biodiesel blending, fuel additives)

“Delivering quality chemicals that power industries and innovation.”

Monoethylene Glycol (MEG)

A colorless, odorless, syrupy liquid derived from ethylene oxide, mainly used in polyester and antifreeze production.

- **Grades/Forms:** MEG industrial grade, packed in bulk tankers/IBCs.
- **Applications:**
 - Textiles & Polyester Fiber (garments, fabrics)
 - PET Bottles & Packaging
 - Automotive (antifreeze, coolants)
 - Industrial resins & adhesives

Caustic Soda (Flakes/Liquid)

Caustic Soda (Sodium Hydroxide, NaOH) is a highly versatile alkali used in numerous industries.

- **Grades/Forms:**
 - Flakes: 98-99% purity, white solid form
 - Liquid: 32% or 50% solution
- **Applications:**
 - Soap & Detergent manufacturing
 - Pulp & Paper mills
 - Water Treatment & Effluent plants
 - Aluminum & Textile processing
 - Chemical intermediates

Urea

(Granular/Prilled)

A nitrogen-rich chemical used primarily in agriculture and industrial formulations.

- **Grades/Forms:**
 - Granular: 46% Nitrogen, larger particle size
 - Prilled: 46% Nitrogen, smaller particle size, quick-dissolving
- **Applications:**
 - Fertilizer production & blending
 - Resin & Adhesives manufacturing
 - Automotive (DEF/AdBlue)
 - Pharmaceuticals & laboratory use

Base Oils (Group I & II)

Base oils are refined petroleum products used as the foundation for lubricants.

- **Grades/Forms:**
 - Group I: Solvent refined, higher sulfur content
 - Group II: Hydroprocessed, higher purity, better oxidation stability
- **Applications:**
 - Lubricant blending (engine oils, gear oils, greases)
 - Automotive & Industrial lubricants
 - Specialty oils (transformer oil, process oils)

Toluene

A clear, water-insoluble liquid aromatic hydrocarbon derived from petroleum.

- **Grades/Forms:** Industrial grade, min 99.5% purity.
- **Applications:**
 - Paints & Coatings
 - Adhesives & Sealants
 - Printing Inks
 - Rubber & Tyre manufacturing

Xylene (Mixed/Ortho/Para)

A group of aromatic hydrocarbons used as solvents and intermediates.

- **Grades/Forms:**
 - Mixed Xylene
 - Ortho-Xylene
 - Para-Xylene
- **Applications:**
 - PET & Polyester production
 - Paints & Coatings
 - Plastics & Polymers
 - Agrochemicals

Isopropyl Alcohol (IPA)

A colorless, flammable solvent widely used for cleaning and disinfection.

- **Grades/Forms:** 99% or 70% purity, bulk and packed forms.
- **Applications:**
 - Pharmaceuticals (disinfectants, sanitizers, APIs)
 - Cosmetics & Personal Care
 - Electronics cleaning
 - Printing inks & coatings

Acetone

A fast-evaporating, highly miscible solvent used in chemical synthesis.

- **Grades/Forms:** Industrial & pharma grade, min 99.5% purity.
- **Applications:**
 - Pharma intermediates
 - Paints & Coatings
 - Adhesives & Sealants
 - Plastics manufacturing (PMMA, acrylics)

“Precision, purity, and performance in every drop.”

Methyl Ethyl Ketone (MEK)

A strong, fast-evaporating solvent used in adhesives and coatings.

- **Grades/Forms:** Industrial grade, min 99.5% purity.
- **Applications:**
 - Paints & Coatings
 - Construction Adhesives
 - Printing Inks
 - Rubber & Tyre sector

Phosphoric Acid

A clear, odorless liquid used in fertilizers, food, and industrial cleaning.

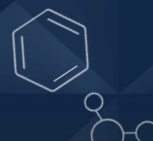

- **Grades/Forms:**
 - Food grade: 85% solution
 - Industrial grade: 75-85% solution
- **Applications:**
 - Fertilizer blending plants
 - Food & Beverage processing
 - Pharmaceuticals (intermediates)
 - Industrial cleaning agents

Sulphur

A yellow crystalline solid widely used in fertilizer and industrial chemistry.

- **Grades/Forms:** Available in granular, pastille, and lump forms.
- **Applications:**
 - Fertilizer producers
 - Sulphuric Acid manufacturing
 - Rubber & Tyre industry
 - Detergents

“Chemistry is at the heart of modern progress. At AxoraChem, we ensure that heart beats stronger — by providing trusted solutions, fostering partnerships, and driving industrial growth across the globe.”

OUR SERVICES

At **AxoraChem**, we go beyond trading — we deliver end-to-end chemical solutions built on reliability, intelligence, and sustainability.

1. Global Sourcing & Procurement

Direct access to leading global producers ensures consistent quality and reliable supply — through both long-term contracts and spot deals, fully compliant with international standards (ISO, REACH, etc.).

2. Supply Chain & Logistics

We manage the complete chemical supply chain — from bulk shipping and customs documentation to warehousing and multimodal transport — ensuring safe, on-time delivery worldwide.

3. Market Intelligence & Insights

Our team monitors global price trends, forecasts demand-supply shifts, and advises clients on optimal procurement timing and strategy for maximum value.

4. Custom Packaging & Distribution

From tankers and flexi-tanks to IBCs and drums, we customize packaging and labelling to client needs, maintaining safety and regulatory compliance across all shipments.

5. Sustainability & Compliance

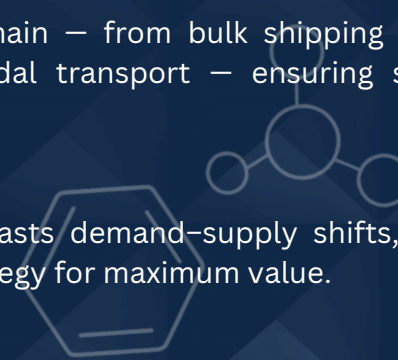

We align operations with global HSE and environmental standards — promoting eco-friendly sourcing, transparent traceability, and client support in meeting compliance goals.

6. Strategic Partnerships

We build enduring alliances across the value chain — connecting manufacturers, distributors, and end-users to develop integrated, industry-specific solutions.

7. Value-Added Customer Support

Clients benefit from dedicated account management, flexible terms, technical support, and continuous engagement beyond every transaction.

GLOBAL REACH

Why Saudi Arabia?

Positioned at the heart of global trade routes, Saudi Arabia offers AxoraChem unparalleled connectivity to East–West supply chains. Leveraging world-class ports in Jubail and Dammam, along with strong logistics infrastructure, we ensure:

- *Seamless import & export operations*
- *Cost-effective and timely deliveries*
- *Direct access to both producers and buyers*

At **AxoraChem**, we believe that chemicals are not just commodities, but the lifelines of industries worldwide. From our headquarters in **Jubail, Saudi Arabia**, we serve as a bridge between producers and consumers across continents.

- **Middle East & GCC** – Strong presence in Saudi Arabia, UAE, Oman, and Bahrain, supplying key sectors such as petrochemicals, oil & gas, and construction.
- **Asia** – Active trading with India, China, South Korea, and Southeast Asia, supporting textiles, packaging, and pharmaceuticals.
- **Africa** – Supplying fertilizers, industrial chemicals, and consumer goods manufacturers across North and East Africa.
- **Europe** – Partnerships with distributors and industrial buyers in Germany, Italy, and Eastern Europe for specialty chemicals and intermediates.

OUR TRADING STRENGTHS

- Diverse sourcing base across **Asia, Middle East, and Europe**
- Multimodal logistics: sea, land, and air
- Established partnerships with **manufacturers, distributors, and end-users**
- Ability to scale from bulk shipments to tailored regional supply

At **AxoraChem**, our **global reach** is matched by our **local strength** — we bring international markets to our clients while ensuring personalized service rooted in trust.

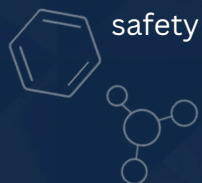

INDUSTRIES WE SERVE

At **AxoraChem Global Trading Co. Ltd.**, our products are the essential building blocks driving innovation across key global sectors. From energy and infrastructure to healthcare and consumer goods, we deliver chemical solutions that fuel progress, reliability, and sustainability.

Key Sectors We Support

- **Petrochemicals & Energy:** Methanol, MEG, base oils, and solvents supporting refining, fuel additives, and lubricants.
- **Pharmaceuticals & Healthcare:** Acetone, IPA, methanol, and phosphoric acid used in APIs, disinfectants, and formulations.
- **Paints, Coatings & Adhesives:** Toluene, xylene, MEK, and acetone for industrial coatings and surface protection.
- **Textiles & Packaging:** MEG, xylene, and PET resins for fibers, fabrics, and sustainable plastic packaging.
- **Agriculture & Fertilizers:** Urea, sulphur, and phosphoric acid promoting food security through responsible farming.
- **Soaps, Detergents & Personal Care:** Caustic soda, sulphur, and IPA for hygiene, cleaning, and personal care.
- **Construction & Infrastructure:** Specialty resins, sealants, and coatings for durability and performance.
- **Rubber & Tyre Manufacturing:** Toluene, MEK, and sulphur enabling high-quality rubber and polymer production.
- **Electronics & Specialty Applications:** IPA, solvents, and lubricants for precision cleaning and manufacturing.
- **Pulp, Paper & Printing:** Caustic soda, solvents, and resins for ink and paper processing.
- **Food & Beverages:** Food-grade phosphoric acid and additives ensuring quality and safety in global F&B industries.

COMPLIANCE & SUSTAINABILITY

Regulatory Compliance

- Adherence to **global standards** including REACH (Europe), OSHA (USA), and GHS guidelines.
- Strict compliance with **Saudi Arabian regulations**, customs, and port authority requirements.
- Transparent documentation for every shipment, ensuring **traceability and accountability**.
- Partnerships only with certified producers and logistics providers who meet **ISO and HSE standards**.

Sustainability Commitment

- **Eco-friendly sourcing:** prioritizing producers who adopt greener technologies and sustainable practices.
- **Energy efficiency:** optimizing logistics and supply chains to minimize emissions and resource waste.
- **Waste reduction:** supporting clients with solutions that encourage recycling, recovery, and safe disposal.
- **Sustainable agriculture:** through fertilizers, sulphur, and phosphoric acid that help improve food security responsibly.

Health, Safety & Environment (HSE)

At **AxoraChem**, safety is non-negotiable.

We enforce zero-compromise policies in handling, storage, and transport of chemicals, ensuring the protection of people, assets, and the environment.

Regular training, inspections, and global best practices form the backbone of our HSE culture.

AXORACHEM

WHY CHOOSE US

- **Trusted Sourcing** – direct access to certified global producers with consistent quality.
- **Strategic Location** – headquartered in Jubail, Saudi Arabia, at the crossroads of global trade routes.
- **Industry Experience** – a team serving diverse industries since 2011, with proven knowledge and reliability.
- **End-to-End Solutions** – from procurement to packaging, logistics, and market insights.
- **Commitment to Compliance** – international safety standards and environmental responsibility in every transaction.
- **Customer-Centric Approach** – long-term partnerships built on transparency, flexibility, and service excellence.

At **AxoraChem**, we are more than just a trading house – we are a trusted partner for industries worldwide.

Future Outlook

At **AxoraChem Global Trading Co. Ltd.**, our ambitions are global. Building on our strong foundation in Saudi Arabia, we are committed to expanding our trading network into new markets across the Americas, Eastern Europe & Central Asia, while deepening our presence in Asia, Africa, and Europe.

In alignment with Saudi Arabia's Vision 2030, our goal is to become a top-tier global chemical trading house by the end of this decade. We aim to achieve this by:

- Strengthening partnerships with producers and end-users worldwide
- Enhancing digital supply chain solutions for greater efficiency
- Investing in sustainable practices that reduce environmental impact
- Expanding our product portfolio to meet the evolving needs of industries

At **AxoraChem**, we don't just look at today – we are building the chemical trading solutions of tomorrow.

QUALITY • TRADE • COMPLIANCE

Quality & Documentation

At **AxoraChem**, quality assurance is embedded into every transaction.

- Certificate of Analysis (COA) and Material Safety Data Sheet (MSDS/TDS) provided with all shipments
- Full batch traceability and lot tracking for accountability
- Independent third-party inspection available on request (SGS, Bureau Veritas, Intertek)

Legal & Registrations

AxoraChem Global Trading Co. Ltd. is a registered company in the Kingdom of Saudi Arabia.

- Arabic Name: شركة أكسورا كيم جلوبال تراديدينج المحدودة
- Commercial Registration (CR) No.: 7051913783
- VAT No.: 314276398100003

“Precision, integrity, and excellence—sealed in every shipment.”

Trade Terms

We offer flexible and globally recognized trade terms to suit our clients' needs:

- Incoterms: EXW, FOB, CIF, DDP (as applicable)
- Payment Methods: Telegraphic Transfer (TT), Letter of Credit (LC) at sight (subject to credit approval)
- Lead times and minimum order quantities vary by product and can be customized based on demand

HSE & Packaging

Safety and compliance are at the core of our packaging and logistics practices

- UN-approved drums, IBCs, tankers, and bulk packaging available
- Proper labeling in line with GHS standards
- Storage and handling guidelines provided for each product
- Strict adherence to health, safety, and environmental standards
