With
You're Truly Desired

ABOUT US

YTD is a Canberra based Event and Wedding stylist.

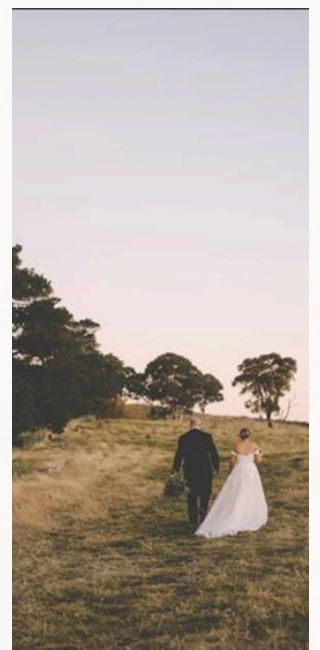

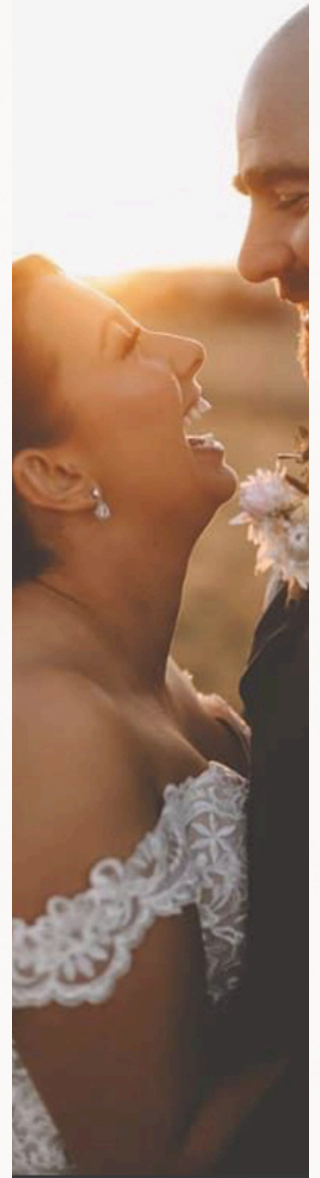

Established in August 2018 after being inspired from our own DIY wedding held on a private property in the Southern Highlands.

From there our business has had the opportunity to flourish from a small hobby business into something very special and rewarding.

We keep up to date with the latest trends and styles and will ensure that your special day will stand out with our personalised styling.

We ensure our Events and Weddings are cohesive, timeless and YOURS. By styling the wedding decor in conjunction with the event signage and stationery pieces it allows the entire wedding from start to finish to flow seamlessly.

Desire to share, love, celebrate and laugh.

K E Y

YOUR STYLIST

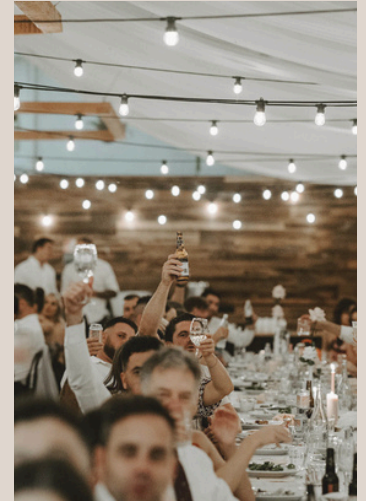

Hi, I am Corinne Demetrius

*A wedding stylist is solely responsible for the look and feel of your day. Their role is to organise and oversee all of the **visual components** that will help to bring your desired vision to life. Wedding stylists have a talent for decoration and design, but differ from wedding planners and coordinators.*

We listen to your vision and inspiration, provide our ideas and skills and create the most desirable Wedding decor to match.

Important information to consider: We use our own styling decor and concepts and unfortunately cannot be hired to style your DIY decor

We work with some really fantastic florists but are always open to working with your preferred florist We are stylists, but we also love to get the opportunity in coordinating things like your cake, favors, menus, signs etc.

YTD

TIME TO START PLANNING

How it works

- Choose a package & theme

We have carefully created several packages from the ceremony, full styling, through to cocktail styled weddings.

Share your deepest darkest dreams for your wedding theme, colour choice and must haves.

Contact us

- Let us know the important details

Provide your wedding details, location, timing, styling needs and other important details, including pinterest links or inspo images via our online form. From here we will contact you to go through the concept and finer details and create a quote.

Saying yes..again

- If you're happy to proceed we will issue the quote as an invoice and request a deposit.

After a deposit is received we will then create a mood board, engage with the other vendors involved including the venue and start our planning process. We will be contactable throughout the process and keep you updated with the planning and preparation.

WEDDING

MOOD BOARDS

By creating a mood board we are creating a visual representation of your chosen theme, colour, our ideas and concept, plan and brief. This will allow you to have a greater understanding of what we have described in your quote along with a visual for your special day. Your mood board is an example and is used as inspiration for our styling concept only, it is not an exact placement of decor or florals

YET D

We look forward to hearing from you and getting the chance to make your dream wedding come true.
