BIO-PRUF

Originally created for rooms with special demands like hospitals, sterile rooms, laboratories, dental practices and the food industry, are films with BIO-PRUF™ technology also perfect for a stretch ceiling at home.

BIO-PRUF

PERFORATED

The micro-perforated ceiling film is designed for the manufacture of acoustic ceilings. The material offers an optimum combination of perforation size and distribution on the surface, which leads to maximum sound absorption properties.

MICRO-PERFORATED ACOUSTIC FILM
