

A modern interior space featuring a large wooden dining table and white chairs. The room has a high ceiling with exposed wooden beams and large windows with light-colored roller blinds. The blinds are partially open, revealing a view of a lush green landscape and a paved patio area. The floor is made of light-colored stone tiles.

ROLLER BLINDS

Controlled lighting. Open views. Modern styles. Sleek design. On-trend textures, colours and fabrics.

Inspired by the global trends in fabric, design, fashion and textiles, the new Taylor Blinds extended collection boasts over 100 different elegant fabrics. The collection includes classic cotton- and linen-look fabric textures that create a balanced and calming atmosphere as well as functional screens that are perfect for light management and heat control.

ROLLER BLINDS FINISH OPTION GLOSSARY

LIGHT FILTERING

Light Filtering fabrics are sheer and allow the maximum amount of light in. They create a decorative atmosphere and filter light in a soft, beautiful and natural way. There are different types of light filtering fabrics: **transparent** versions don't have an acrylic coating whereas translucent fabrics do have acrylic coatings. **Translucent** fabrics are more sheer.

DIM OUT

Dim Out blinds are 90% Block Out. They impede the view from both inside and outside. Dim Out fabrics beautifully filter the sunlight, while still creating a diffuse light in the interior. These blinds are often used in kitchens, living rooms and dining rooms. Dim Out blinds let a small amount of light in. The material is not too thick or thin as there is only one solid coating layer on the back (versus Block Out, which has three).

SCREEN

Screen fabrics allow in plenty of light – yet protect you, your flooring and furniture from UV rays and glare. They are wonderful as energy-saving blinds as they maintain a temperate climate in your room. They provide a great level of privacy during the day, however the opposite is true at night. Screens combine function and beauty: with their functional properties and architectural look and feel, screens are perfectly suited to large windows.

BLOCK OUT

Thanks to their coating on the back side, Block Out roller fabrics completely **Block Out** light, which makes them perfect for the bedroom, boardroom or nursery room. Select between various fabric finishes to complement your décor, and your **choice of PVC or PVC-free** fabric properties.

B-RANGE LIGHT FILTERING

This translucent plain fabric has the aesthetic and texture of a textile fabric and is available in both Light-Filtering and Block-Out configurations. The B-Range is ideal for humid spaces and bathrooms due to its moisture protection properties.

E Child-safety clip

ZEBRA ROLLER BLINDS

Thanks to the double layer fabric of light-filtering (transparent) and non-light-filtering (dim out) stripes, you can play with light and create a modern look. The light-filtering (transparent) stripes allow maximum light in and create a feeling of space, while the non-light-filtering (dim out fabric) darkens the room, providing you with more privacy.

PARGA LIGHT-FILTERING

This translucent and flame-retardant double roller blind fabric has a delicate woven structure and a subtle silk gloss.

BENEFITS

	Easy to Clean
	Suitable for Moist Conditions
	Temperature Insulation
	Automated or Manual
	Flame-Retardant
	Suitable for Roller Blinds

	Width:	2800mm
	Solid Fabric Thickness:	Zakynthos Fabric - 0.31mm
	Solid Fabric Height:	50mm
	Solid Fabric Height:	50mm

CRITICAL INFORMATION TO NOTE

These blinds will function best if they are NOT rolled up around the cassette, revealing an open window. Zebra Roller Blinds are meant to hang permanently – only moving the blind to either a sheer fabric or a solid (dim out) fabric. If the blinds are constantly rolled up and down it could impact the fabric lines and balance, resulting in skew fabric lines. If this is not a suitable solution for you, consider the DAY/NIGHT bracket, which can house both sheer screens and block out and allow for both the blinds to be drawn up, revealing an open window.

AVAILABLE COLOURS*

VENETIAN BLINDS

Versatile and practical, our collection features Aluminium, Styro-Wood, Bamboo Wood, and Wood versions. The beauty of Taylor's Venetian Blind Collection is timeless and sophisticated. Bold, natural and neutral tones add a tranquil and welcoming touch to any room, framing your windows and providing shade when needed. Control the lighting, your privacy and your view with these chic, durable blinds.

WOODEN VENETIAN BLINDS

VENETIAN BLINDS

The beauty of Taylor's Wooden Venetian Blind Collection is timeless and sophisticated, a true classic taste for all seasons. These popular blinds add warmth and contemporary flair to your room or space, letting nature in to work her magic.

The natural material and neutral tones of Taylor's Wooden Venetian Blinds add a tranquil and welcoming touch to a room, framing your windows and providing shade when needed. The streamlined design adds simplicity to window dressings and a classic, contemporary feel. The blinds are durable and versatile.

Taylor's Venetian Wood Blinds are made from wood sourced from renewable plantations in the Far East. The 50 mm slat blinds are available in a variety of subtle hues, colours and textures.

Wooden Venetian Blinds in Oak

BENEFITS

- Cords, Tapes, Head and Bottom Rails are Colour Co-ordinated
- Made from Natural Materials
- Wood has a Special UV Protective Coating

TECHNICAL SPECIFICATIONS

Collection:	Basswood Standard Range, Styro-Wood Range, Deluxe Range
Sizes:	Available in a 50 mm slat width Min-Max blind width: 600 mm - 2430 mm Min-Max blind height: 650 mm - 2600 mm
Benefits:	UV Protective Coating

AVAILABLE COLOURS*

*Due to the nature of printed brochures, the most up-to-date colours should always be checked with your sales representative.

STYRO-WOOD VENETIAN BLINDS

Versatile and practical. The wood-substitute Venetian blind, Styro-Wood, is made from a polystyrene resin base and offers the benefits of a wood look and feel but without the negative characteristics that come with natural wood (e.g. warping, fading). This style of blind is therefore an ideal choice for bathrooms, kitchens or damp areas.

Styro-Wood Venetian Blinds are available in a 50 mm slat.

BENEFITS

- Easy to Clean
- Easy to Pull Up
- Cords, Tapes, Head and Bottom Rails are Colour Co-ordinated
- Styro-Wood Range is Suitable for use in Damp Areas (e.g. bathrooms)

AVAILABLE COLOURS*

BAMBOO WOOD VENETIAN BLINDS

Inspired by nature. Perfected by Taylor. Taylor’s Bamboo Venetian Blinds are perfect for creating a serene and nurturing environment with a touch of strength and elegance. Bamboo Wood Venetian Blinds offer many unique design benefits: they lend elegance to almost any room décor and their durability makes them reliable, as they fulfil the functions of the traditional blind with little to no maintenance.

Bamboo Wood Venetian Blinds are eco-friendly and this, as many agree, is a big part of the natural ambiance that bamboo blinds lend to a room. The natural elements of bamboo make it a perfect material for use in the manufacturing of window-covering products. They are deceptively durable and can withstand sunlight for extended periods of time.

BENEFITS

- Can be Fitted to any Window or Door
- Easy to Clean and Easy to Pull Up
- Cords, Tapes, Head and Bottom Rails are Colour Co-ordinated
- Made from Natural Materials
- Bamboo has a Special UV Protective Coating

ALUMINIUM VENETIAN BLINDS

Blinds for the contemporary and trendy. Our modern range of made-to-measure Aluminium Venetian Blinds offers a wide variety and choice of colours, finishes and trend-led designs inspired by global architecture. Control the lighting, your privacy and your view with chic, durable Aluminium Venetian Blinds.

The aluminium slats are available in 25 mm and 50 mm width. The stainless steel pins are used to ease the cord pull, which means they won't corrode, rust or damage the cords.

VERTICAL BLINDS

The simplicity of Taylor's Vertical Blinds creates a chic and trendy window dressing and is especially popular in offices and contemporary homes. Vertical Blinds are back in fashion for home décor too. They work with any size window or patio door – parting left, right or splitting evenly on either side – and their perfect straight lines allow you to control the light that enters a room, your privacy and your views.

They are easy to clean and offer excellent insulation against heat and cold. The washable fabric strips are available in widths of 90 mm and 127 mm and you have a variety of colours and textures to choose from, including a total Block Out PVC option. Our patented stainless steel rods will not corrode, and guarantee years of trouble-free service.

SMARTIFY YOUR LIFE WITH COULISSE

Our smart technology for window coverings is doing what it was designed to do: making life easier, safer and more convenient for smart home users around the world. Making it a must-have for any smart home. Talking to thermostats, security cameras, weather stations and sensors to ensure the home is fully protected, as well as creating an optimal indoor climate at all times. It is the only device on the market to block incoming daylight and connect with artificial lighting to control heat and light to create a happy, healthy and inspiring space to live and work.

ENERGY EFFICIENCY

Smart window coverings automatically adapt to changing temperatures inside and outside the home, helping to save energy.

SAFETY

Smart window coverings can be set to open and close at any time you require, which means your home seems inhabited even when you are away.

CONVENIENCE

Smart window coverings move to the rhythm of your daily life, creating the perfect atmosphere at any time of the day.

SMART TECHNOLOGY

MotionBlinds is smart technology for window coverings applied to a complete range of battery powered and wired motors and controls for all types of window coverings in residential, commercial and hospitality.

WHY MOTION BLINDS

Cable-free installation, easy set up

Connect to your smart home

Technology invisible to the eye

SMART HOME CONNECTIVITY

OPERATE FROM ANYWHERE, IN ANY WAY.

By adding just one component, the MOTION Wi-Fi bridge, unlocks as many as three new control options:

CMD 01 WIFI BRIDGE

- App control
- Voice control
- If This Then That (IFTTT)

APP CONTROL

The MOTION app makes it possible to control window coverings from anywhere in the world by smartphone, and to programme scenes and timers. MOTION enables voice control through smart speakers. The app, If This Then That (IFTTT) links an array of other applications, resulting in smart homes that are fully adapted to the users' lifestyle.

Compatible with different types of blinds.

Set the blind to any desired position: for example, "Set blinds to 60%".

Create rooms with multiple blinds.

Set scene with preset position: for example, "Morning blinds go up".

Add timer to automate scenes.

SOMFY CONNECTED SOLUTIONS

Designed to provide convenience, comfort and energy savings, Somfy’s automated solutions are an important enhancement for homes and commercial buildings. At the push of a button, or automatically, they will open or close, providing shade and privacy.

Motorised blinds add a level of ease and convenience with the touch of a single button.

Blinds are an essential addition to a home or office's energy-savings. Your windows release a lot of the temperature from within a home or office building – heat in winter and coolness in summer. Electric motors for interior shades or blinds are easy to operate and work smoothly to keep your window coverings beautiful and functioning longer.

THE FIRST SMART CONTROL TO CENTRALISE AND CONNECT YOUR HOME EQUIPMENT.

SIMPLIFY YOUR LIFE WITH A SMART HOME:

Installing motorised shutters, blinds, awnings or gates is the first step to making life at home more convenient.

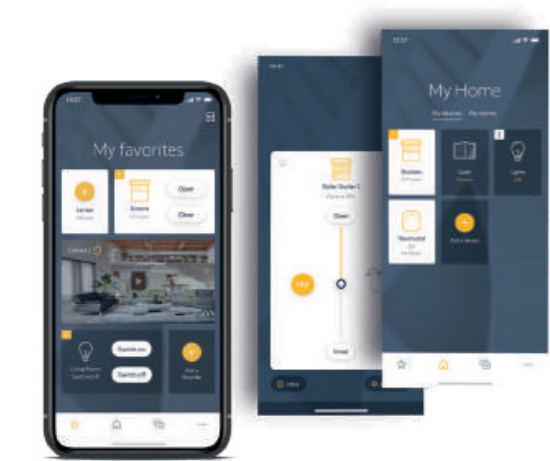

By adding connectivity with TaHoma switch, you easily make the most of your home to bring more peace of mind and a lighter daily routine, while improving your comfort, security and energy efficiency everyday.

Whether you are at home or away, effortlessly manage your home to centralise, control, check and automate your devices.

EASILY CONTROL YOUR EQUIPMENT IN DIFFERENT WAYS:

- In a touch on the smart control
- In a tap on your smartphone
- By voice with a compatible voice assistant (Amazon Alexa, Google Assistant)
- Or even without thinking about it thanks to the time programming function or a sensor.

MOTORISATION

A RANGE OF SILENT MOTORS FOR SOMFY MOTORISED INTERIOR BLINDS

Sonesse® 40 RTS
3/30 Ref.1001573

Sonesse® 40 RTS
6/20 Ref.1001577

Sonesse® 30 WireFree
Li-ion RTS Ref.1003128

Li-ion charger RTS
Ref. 9020810

BENEFITS

- Improved thermal and visual comfort
- Reduced maintenance costs
- Energy savings
- Infinite architectural possibilities

TECHNICAL SPECIFICATIONS

- Originates from France
- 5-year guarantee, subject to wear and tear
- Motorised / Battery Operated Available
- No Side Channels Available
- Motors are rated 45 DBA at 1 m (near silent)
- Comply with European and International Standards
- Available Locally
- Handheld and Wall-mounted Remotes Available

YOUR RESPONSE TO COMMERCIAL BUILDING REQUIREMENTS

Design-inspired, sustainable architecture with bioclimatic façades performance is the driving force behind our product development processes.

Sonesse® motors are compatible with Somfy’s bioclimatic façade management systems. They act as automatic, intelligent filters that adjust the amount of natural light let in without affecting noise levels.

PEOPLE: OUR NUMBER ONE PRIORITY

Silence, simplicity, privacy, thermal comfort, natural light quality and sustainable performance are the driving forces behind our product development processes.

Sonesse® range offers an unrivalled choice of motors and accessories designed with occupant well-being.

OUR RANGE OF CONTROLS FOR INTERIOR BLINDS

SITUO 2 RTS ROSE GOLD, PURE AND SILVER

2 channels, ideal for double curtains (sheer and block out)
Ref. 1811433 | Ref. 1811 418 | Ref. 1811419

SITUO 5 RTS ROSE GOLD, PURE AND SILVER

5 channels for your best convenience
Ref. 1811421 | Ref. 1811 435 | Ref. 181 1420

TELIS 16 RTS PURE AND SILVER

- 16-channel radio remote
- To control 16 products or group of products
- Up, Down and Stop functions
- Favourite position “my”

Ref. 1811020 | Ref. 1811021

EXCLUSIVE PRECONTRANT® TECHNOLOGY

Patented worldwide, the Précontraint® technology by Serge Ferrari involves keeping the composite under tension throughout the manufacturing cycle. It gives our materials exceptional performance that enable them to surpass market standards in terms of dimensional stability, mechanical strength, coating thickness and flatness.

- **High-tenacity polyester micro-yarn base cloth**
Superior elongation and tear resistance
- **A coating with fabrics under biaxial constant tension in both warp and weft directions**
No deformation during processing and use
- **Greater coating at the top of the yarns and a dirt-resistant surface treatment**
Superior aesthetic and mechanical durability
- **Exceptional flatness and thinness**
Smooth finish, easy to clean, space-saving and easy rolling

QUALITY. INNOVATION. TRUST.

WHO ARE WE?

For over 60 years, Taylor has been synonymous with providing service excellence and innovative, elegant, quality products. Be it stylish aluminium or wood-substitute shutters, contemporary security gates, the streamlined simplicity of venetian, vertical, roller or woven blinds, Taylor has the perfect solution for your home or office.

Taylor innovation is savvy – merging design and functionality to provide stylish, sleek and practical window and door covering custom-made solutions.

WHY WE'RE DIFFERENT?

We know everyone has unique tastes so we work alongside home owners, designers and architects to provide Taylor-made-to-measure, locally manufactured, top quality products that are delivered and installed within our committed time frame to you.

We pride ourselves in our quality and service and offer a warranty on all products manufactured in our factory, that they will be free from defects in material and workmanship, for a set period ranging from 2 to 10 years from date of delivery. This warranty is given subject to certain conditions.

QUICK TURNAROUND

We have an 8000 m² purpose-built factory and are able to manufacture within a maximum of two weeks from signed-off order*. Our service ethic includes the highest quality control, which is why we confidently offer 2- to 10-year warranties, depending on the product.

SECURITY WITH STYLE

Security shouldn't come at the expense of style. ShutterGuard® Aluminium Shutters are stylish, rustproof and perhaps, more importantly, through innovative construction, they also provide high-end security when closed. So you'll have complete peace of mind when away from home. Think of it as a haute couture suit of armour.

*Excluding delivery, which requires 5 working days.
