Lyrics: "For Only Love Knows"

[Verse]

I saw the clouds roll in today
They whispered truths I couldn't delay
The years we shared now start to blur
This road ahead feels unsure

[Verse 2]

I tried to hold our memories tight
But shadows steal the words at night
Your name feels safe upon my tongue
When days are short but love stays young

[Chorus]

I said farewell but not goodbye Hold this song when tears run dry Play it loud when I am far Let its chords heal every scar

[Verse 3]

The photographs may fade away
But your laughter's light will always stay
In every note and every line
You'll find me there
Our love divine

[Bridge]

Don't grieve the things I can't recall My heart remembers it all This melody will guide you through A piece of me left just for you

[Chorus]

I said farewell but not goodbye Hold this song when tears run dry Play it loud when I am far Let its chords heal every scar
