

**Division of Abandoned Mine Lands AML PILOT Project
Status Report**

Grant Recipient Name: Big Sandy Area Development District

Project Name: Martin Co. Water Systems Controls & Raw Water Modification

Project Manager: Monica Spriggs

Date Submitted: January 7, 2019

Accomplishments:

Bell Engineering is currently working to complete preliminary engineering report. Martin County Water District was unsuccessful in obtaining As-Built Drawings for the intake to supply to Bell Engineering. BSADD has requested the drawings from Kentucky Engineering Group. A progress meeting will take place on January 16th.

Performance outcome data/metrics:

Bell Engineering is working to complete the preliminary engineering report.

BSADD staff continues to attend Martin County Water District Board meetings.

Problems, issues, variances from plan:

Martin County Water District was unsuccessful in obtaining as-built drawings for the intake from Kentucky Engineering Group. BSADD has requested the drawings, but as of December 31st there has been no response. This has potential to impact the project's budget.
