

**Division of Abandoned Mine Lands AML PILOT Project
Status Report**

Grant Recipient Name: Big Sandy Area Development District
Project Name: Royalton Trail Town Pilot Project
Project Manager: Denise Thomas
Date Submitted: 5/25/18
Reporting Period: May 2018

Accomplishments:

The consulting engineer for the project has continued with design work and in preparation for bidding the project pending environmental clearances and authorization to proceed. Design of the structures has been drafted as well as drainage design, and floodplain permit work.

Performance outcome data/metrics:

Design activities continue as planned over the next several weeks including preparation for bidding the project is anticipated in order to be ready to bid the project upon authorization to proceed being granted.

BSADD has created a link on its website to post information about the project's progress.

Problems, issues, variances from plan:

Variances include the addition of acreage adjacent to the existing tract under lease and a new lease. (No expenditures of grant funds on the additional acreage will take place.) A re-configuration of the site attributes has taken place with a new site plan having been completed and agreed upon locally. Insurance coverage on the property is to be resolved (as noted in previous reports); it is anticipated that insurance will be on hold pending construction activity when the contractor will incur that expense.
