

What's happening at The ARK?

COMMUNITY EDUCATOR

We recently filled the position of Community Educator with recent Howard Payne University graduate, Haylee Maddox. Haylee graduated in May with a bachelors in Strategic Communication and Practical Theology. We are excited to have her join our ARK family and continue the work of awareness and education in the community. If you have any questions about community engagement please contact Haylee Maddox and she will gladly get you or your company plugged in.

"The ARK is doing necessary work for Brownwood and surrounding counties. I am excited to aid in community awareness and education of all ages." -Haylee Maddox

SEXUAL ASSAULT ADVOCATE

Angela Ayers has been with The ARK since 2015 when she started as the receptionist. She then decided to switch over to advocacy a year later and has been The ARK's Sexual Assault Advocate since then. Angela brings a wealth of compassion and knowledge to the position; and helps survivors navigate through the medical and emotional aspects of sexual assaults. Angela is a proud wife of 32 years and mother of two; her daughter is busy raising two rambunctious young girls, and her son is in his final year of college. The ARK considers itself lucky to have dedicated team members and advocates like Angela to help serve survivors in our community.
