

## Moving Checklist

Here's a general moving checklist to help you plan and organize your move:

1. Create a timeline: Decide on your moving date and create a timeline for all the tasks you need to complete.
2. Hire a moving company: Research and compare moving companies and hire the one that best fits your needs.
3. Declutter: Sort through your belongings and decide what to keep, sell, donate, or throw away.
4. Notify important entities: Inform your employer, banks, schools, utility companies, and other organizations of your move and provide your new address.
5. Pack your belongings: Start packing early and label boxes clearly to make unpacking easier.
6. Secure your valuables: Pack important documents, jewelry, and other valuables separately and keep them with you during the move.
7. Disconnect utilities: Schedule disconnection and reconnection of utilities at your old and new places.
8. Prepare your new home: Clean and paint your new place, if necessary, before moving in.
9. Move day: Be present during the move to supervise and address any issues that may arise.
10. Unpack and settle in: Unpack your belongings and set up your new home as soon as possible to start feeling settled.
