

## Beautec for Spas® FAQ and Answers

1. What is the best way to use the Beautec® for Spas? *Add the product monthly for best results.*
2. Can I use the spa after adding Beautec® for Spas? *Yes, the treated water is perfectly safe for bathers to use.*
3. Is Beautec® for Spas acidic? *Beautec® is non-hazardous and non-acidic. It is safe for all type of spa finishes and equipment.*
4. If I am using Beautec®, do I still need to use a metal control product to control staining? *In most cases you do not need a metal sequestering agent unless you have very high metal issues.*
5. Will Beautec® for Spas remove calcium buildup on my spa surfaces and tile? *Yes. Follow label directions for best results.*
6. Does Beautec® for Spas remove or just control scum line buildup? *Actually, it does both effectively. The product functions continuously to clean all spa surfaces, filter, heat exchanger, decorative tile, plumbing, salt cells and measuring probes as well.*
7. Will Beautec® for Spas just prevent calcium buildup on my salt cell or will it also remove existing calcium scale? *Actually, it both prevents and calcium de-scaling unless the salt cell is extremely scaled.*
8. Do I need to purchase a “purging” product to clean spa water recirculating lines when using Beautec® for Spas? *It is not necessary to purchase a separate product as Beautec® for Spas continuously cleans spa water pipes and plumbing.*
