

SUMMER TREATMENT CHART:

POOL SIZE (in gallons and litres)	ALGAE CLEANUP DOSAGES			Weekly Followup
	Amount of Algae Growth			
	Minimal: up to 25% of pool	Moderate: up to 50% of pool	Heavy: up to 100% of pool	
10,000 gals. (38,000 litres)	8 to 16 ozs. (240 to 475 ml)	16 to 24 ozs. (475 to 700 ml)	24 to 32 ozs. (950 to 1400ml)	4 to 8 ozs. (120 to 240 ml)
20,000 gals. (76,000 litres)	16 to 32 ozs. (475 to 950 ml)	24 to 48 ozs. (950 to 1400 ml)	48 to 64 ozs. (1400 to 1900ml)	8 to 16 ozs. (240 to 480 ml)
25,000 gals. (95,000 litres)	24 to 40 ozs. (700 to 1200 ml)	40 to 64 ozs. (950 to 1900 ml)	60 to 80 ozs. (1800 to 2400ml)	12 to 24 ozs. (360 to 720 ml)

Algatec® is a synergistic algaecide, water clarifier and chlorine booster for all types of swimming pools. Algatec® helps improve water quality and swimmer comfort in swimming pools, spas and hot tubs. As an algaecide, Algatec® kills green and yellow algae in 4 to 24 hours and eradicates black algae (fungus) in 7 to 10 days. Algatec® also strongly prevents algae growths in swimming pools. Algatec's® clarifiers flocculate to create ultra-clear water in swimming pools. Its synergy with swimming pool, spas and hot tub sanitizers helps boost chlorine and bromine effectiveness up to 600% while reducing sanitizer usage between 25% to 65%. Algatec® is compatible with all salt cell systems and helps improve salt cell performance.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in manner inconsistent with this labeling.

ALGAE CLEANUP - ALL POOLS:

1. To start, pools containing heavy algae growth should be cleaned of excess debris. Algatec must be used with approved sanitizer.
2. Superchlorinating pool water and adjusting water pH will help improve cleanup.
3. Operate pool filter pump during entire cleanup period which is typically 4 to 24 hours.

GREEN ALGAE:

1. To kill GREEN algae, add Algatec® "Visible Algae Dosage" - use higher dosage for heavier algae growths.
2. It is important to brush algae clinging to pool walls and surfaces.
3. After cleanup period, re-test pool water and balance chlorine and pH.
4. Clean filter unit and/or backwash as required.
5. Add Algatec® weekly to help prevent the re-growth of algae.

KEEP OUT OF REACH OF CHILDREN

Synertec® Concentrated Formulation

ALGATEC®

The Easiest Way To Eliminate Green, Yellow and Black Algae

- * Kills green and yellow algae in 4 to 24 hours (black algae takes 7 to 10 days).
- * Fast cleanup action with strong chlorine synergy (no chlorine loss).
- * Prevents algae growth and keeps pool water crystal clear.
- * Contains no metals, bromide or quats. Non-staining and non-foaming.

ACTIVE INGREDIENTS: Poly[oxyethylene (dimethylimino)-ethylene(dimethylimino)-ethylene dichloride] 30%
INERT INGREDIENTS:..... 70%
100%

This product contains 2.67 lb. of active ingredients and weighs 8.9 lb. per U.S. gallon.

64 FL. OZ. (2 QTS.) 1.89 LITERS

Made in U.S.A

WINTER TREATMENT CHART:

Pool Size in U.S. Gallons and Litres	WINTER LAYUP TREATMENT		
	INITIAL DOSAGE		*MAINT. DOSAGE EVERY 60 DAYS
	CLEAN	VISIBLE ALGAE	
10,000 (38,000 litres)	24 ozs. (700 ml)	40 ozs. (1200 ml)	24 ozs. (700 ml)
20,000 (75,000 litres)	48 ozs. (1400 ml)	80 ozs. (2400 ml)	32 ozs. (950 ml)
40,000 (150,000 litres)	96 ozs. (2850 ml)	160 ozs. (4.7 Litres)	64 ozs. (1900 ml)

Covered pools: only the "initial dosage is required. * Mesh pools: double initial dosage.

YELLOW OR MUSTARD ALGAE

1. To kill YELLOW algae, add Algatec® "Visible Algae Dosage," use higher dosage for heavier algae growths.
2. It is important to brush all yellow algae clinging to pool walls and surfaces.
3. Add a shock level of chlorine (liquid or dry) to assist in the cleanup process. Follow manufacturer instructions. Adjust water pH to insure proper effectiveness of chlorine.
4. After cleanup period, re-test pool water and balance chlorine and pH as needed.
5. Clean filter unit and/or backwash as required.
6. Add Algatec® weekly to help prevent the re-growth of algae.

BLACK ALGAE - FUNGUS:

1. To kill BLACK algae, add Algatec® "Visible Algae Dosage" - use MAXIMUM cleanup dosage.
2. Use a combo or wire brush and frequently scrub growth for 7 to 10 days until growths are eradicated.
3. Broadcast granular chlorine over affected areas to help penetrate and kill growth. Use a type of chlorine that is safe for your pool finish. In addition, superchlorination of pool water will also help further improve cleanup. Follow manufacturer instructions.
4. During cleanup period, check and test pool water frequently. Balance chlorine and pH as needed to maintain adequate chlorination.
5. Clean filter unit and/or backwash as required.
6. Operate pool filter pump at least 6 to 8 hours daily during cleanup.
7. Add Algatec® weekly to insure eradication of black algae - fungus.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. **FIRST**

AID IF SWALLOWED: Call the Poison Control Center or doctor immediately. Have person sip a glass of water if able to swallow. Do not induce vomiting unless advised by poison control center or physician. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin with water. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling for treatment.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, aquatic organisms and clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Keep container closed when not in use. Spills may be slippery. Mop up product with clean water. Do not blend directly with other pool chemicals. **PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Non-refillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available. For information on this product including concerns, medical emergencies or pesticide incidents, call the National Pesticide Center (NPIC) 1-800-858-7378.
