1. Reflect on conversations you've had with others about the church of Christ (or at least reflect on what you've heard others say). How do people understand the church of Christ? How do they describe the church of Christ?

2. They may or may not give reasons for their beliefs but why do you think people believe what they do about the church of Christ?

3. Do you think there is misunderstanding even inside the church (from members)? What are some? Why do you think that even members sometimes misunderstand?

4. How do we resolve all misunderstandings about the church of Christ? What is the one way all people can reach the same conclusions?
