To Whom It May Concern,

It is my pleasure to recommend Tiffany Greer for her outstanding contributions during her time working with Shasta Community Health Center (SCHC). Tiffany brought exceptional skill, creativity, and dedication to our nutrition and culinary education programs, making a lasting impact on both our patients and our community outreach efforts.

As a Nutrition and Chef Educator with SCHC, Tiffany demonstrated an exceptional ability to connect with patients from diverse backgrounds, tailoring nutrition and cooking classes to meet their needs. She not only developed engaging, culturally relevant curricula but also created recipes and activities that were accessible, practical, and inspiring. Her classes combined evidence-based nutrition education with hands-on culinary skills, empowering participants to make healthier choices in their daily lives.

Tiffany's expertise went beyond instruction. She handled all aspects of program preparation and delivery, from planning and packing supplies to ensuring each class was organized, welcoming, and impactful. Her warm and approachable style built trust with participants, many of whom shared how her guidance had changed their approach to food and health. She was also an excellent team player, working seamlessly with colleagues to strengthen our programs.

In addition to her classroom contributions, Tiffany's collaborative spirit and strong community relationships advanced SCHC's mission of improving the health and wellness of underserved populations. Her professionalism, passion for public health, and dedication to service make her an invaluable asset to any organization, and I recommend her without hesitation, knowing she will bring the same commitment, skill, and compassion to her future endeavors as she brought to Shasta Community Health Center.

Sincerely,

Theresa Blanco
Chief Strategy and Communications Officer
Shasta Community Health Center
