AT PRIMERICA YOU DON'T NEED A "J-O-B" TO HAVE A GREAT CAREER.

YOU ARE IN CONTROL OF YOUR OWN DESTINY EVERY DAY!

Forbes.com recently featured an article, "20 Companies Offering Great Job Security," and the Primerica sales force helped rank us in the top 10 companies offering great job security — and the reason is, a career at Primerica is NOT a typical job ... or even a job at all!

At Primerica, you don't have to depend on an outdated idea of job security, because you're your own boss and in control of your own destiny every day. It's easy to have security and work/life balance when your career and your income is up to you. As an independent contractor, you can't fire yourself and you are in control of your future.

The world is changing and the old idea of "job security" and a "9-5 until you're 65" isn't relevant to many of today's workforce, especially to leaders like you who want to set their own career path and create a future on their terms.
