Fresh brilliant color and gesture are Kathy's main objectives while also maintaining an impressionistic yet representational image. Preferring the experience of outdoor painting, her compositions primarily include natural landscapes, sea-

scapes and florals in a fresh spontaneous approach. The juicy vibrancy of her watercolors are combined with brilliant outbursts of color. California's central coast provides abundant inspiration for these continuing efforts.

Kathy started her art career in early adulthood. Primarily self-taught with a few classes at Bakersfield College, workshops with established artists have

been most helpful in her development as an artist. Some of the artists she has learned from include: Joyce Pike, Robert Reynolds, Buck Paulsen, Jo Tarabula, Paul Buxman, Jane Hofstetter and Charles Reid.

Kathy has a long list of accomplishments, but two that she is most proud of are the 1999
