

# Dr Qurban Hussain Khan

Cardiac Electrophysiologist | Assistant Professor | Medical Superintendent

Rawalpindi Institute of Cardiology, Rawalpindi | www.qurbankhan.com | dr.qurban@yahoo.com | +92 335 7981020

## Clinical Specialist. Hospital Operator. Systems Builder.

### Professional Profile

Dr Qurban Hussain Khan is a cardiac electrophysiologist, academic clinician, clinical supervisor, examiner, and healthcare administrator based in Rawalpindi, Pakistan. He combines specialist expertise in heart rhythm disorders with frontline leadership in one of Pakistan's major public-sector tertiary cardiac centres. His work spans arrhythmia care, invasive electrophysiology, postgraduate medical training, clinical governance, patient safety, infection prevention and control, emergency preparedness, quality improvement, hospital governance, and high-volume cardiac service delivery.

### Current Roles

- Medical Superintendent, Rawalpindi Institute of Cardiology
- Assistant Professor of Cardiac Electrophysiology, Rawalpindi Institute of Cardiology
- Clinical supervisor and examiner for postgraduate electrophysiology training

### Education & Credentials

- MBBS, University of Southampton, United Kingdom
- BSc (First Class Honours), United Kingdom
- FCPS Cardiology
- FCPS Clinical Cardiac Electrophysiology
- IBHRE Certified Electrophysiology Specialist
- IBHRE Certified Cardiac Device Specialist
- ESC Certified Heart Failure Specialist
- Certificate of Health Professions Education (CHPE)

### Clinical Expertise

- Evaluation and management of palpitations, SVT, atrial fibrillation, syncope, bradyarrhythmias, and complex arrhythmias
- Electrophysiology studies, radiofrequency ablation, pacemaker implantation, ICD therapy, CRT systems, and cardiac device follow-up
- Experience across routine and complex arrhythmia cases in tertiary-care settings

### Leadership & Systems Work

- Operational coordination of a high-volume public-sector cardiac hospital
- Clinical governance, patient safety systems, quality improvement, and administrative coordination
- Infection prevention and control, emergency preparedness, Code Blue systems, service delivery, and hospital-wide accountability
- Coordination across clinical departments, nursing services, emergency care, diagnostic services, support services, and administrative teams

### Academic & Professional Development

- Active role in postgraduate teaching, mentoring, and electrophysiology workforce development
- Contributor to national cardiac electrophysiology training and professional development in Pakistan
- Publication record across cardiology, electrophysiology, device therapy, syncope, atrial fibrillation, and acute cardiac care

### Public Education & Media

- Public education on heart disease prevention, high blood pressure, palpitations, and arrhythmia management
- Media appearances and educational talks, including Pakistan Cardiac Society teaching sessions
- Professional focus on safer, more efficient, more accountable, and scalable cardiac care systems in Pakistan and the wider region

#### Leadership interests

Hospital operations | Clinical governance | Patient safety | Quality improvement  
IPC | Emergency preparedness | High-volume service delivery | Institutional accountability

#### Professional interests

Cardiac electrophysiology | Arrhythmia management | Device therapy  
Healthcare leadership | Systems transformation in cardiovascular care

#### Professional affiliations

Heart Rhythm Society | British Heart Rhythm Society  
Finance Secretary, Pakistan Heart Rhythm Society

### Career Focus

Through his clinical, academic, and administrative roles, Dr Qurban Hussain Khan aims to combine specialist cardiac expertise with disciplined healthcare leadership to improve patient care, strengthen institutions, and support the development of modern cardiovascular services in Pakistan.
