Dr Qurban Hussain Khan, FHRS

Cardiac Electrophysiologist | Associate Professor | Medical Superintendent

Rawalpindi Institute of Cardiology • qurbankhan.com • dr.qurban@yahoo.com • +92 335 7981020

Clinical Specialist. Hospital Operator. Systems Builder.

Professional Profile

Dr Qurban Hussain Khan is a cardiac electrophysiologist, Associate Professor, postgraduate clinical supervisor and examiner, and healthcare administrator based in Rawalpindi, Pakistan. He combines specialist expertise in heart rhythm disorders with operational leadership in a public-sector tertiary cardiac centre. His work spans invasive electrophysiology, medical education, patient safety, infection prevention and control, emergency preparedness, quality improvement and hospital governance.

Current Roles

- Medical Superintendent, Rawalpindi Institute of Cardiology
- Associate Professor of Cardiac Electrophysiology, Rawalpindi Institute of Cardiology
- Clinical supervisor and examiner for postgraduate electrophysiology training

Education & Credentials

- MBBS, University of Southampton, United Kingdom
- BSc (First Class Honours), United Kingdom
- FCPS Cardiology and FCPS Clinical Cardiac Electrophysiology
- Fellow of the Heart Rhythm Society (FHRS)
- IBHRE Certified Electrophysiology Specialist
- IBHRE Certified Cardiac Device Specialist
- ESC Certified Heart Failure Specialist
- Certificate of Health Professions Education (CHPE)

Clinical Expertise

- Assessment and management of palpitations, SVT, atrial fibrillation, syncope, bradyarrhythmias and complex arrhythmias
- Electrophysiology studies, catheter ablation, pacemakers, ICDs, CRT devices and cardiac device follow-up
- Routine and complex arrhythmia care in a tertiary clinical setting

Leadership & Systems Work

- Operational coordination of a high-volume public-sector cardiac hospital
- Clinical governance, patient safety, quality improvement and administrative coordination
- Infection prevention and control, emergency preparedness, Code Blue systems and institutional accountability
- Coordination across clinical, nursing, emergency, diagnostic, support and administrative teams

Academic & Professional Development

- Postgraduate teaching, mentoring and development of the electrophysiology workforce
- Contribution to national cardiac electrophysiology training and professional development
- Publications across cardiology, electrophysiology, device therapy, syncope, atrial fibrillation and acute cardiac care

Public Education & Media

- Public education on prevention, blood pressure, palpitations and arrhythmia management
- Media appearances and clinical teaching, including Pakistan Cardiac Society sessions
- Professional focus on safer, more efficient and accountable cardiac care in Pakistan and the wider region
