

# Silver Lining

F# F#7/E B

Got a plan or so you say  
Think that your way is the only way  
Maybe you think you spread yourself too thin  
Say you need a good night's sleep  
Say you need a shot of gin  
Say you need a good night's sleep  
Say you need a shot of gin

See the silver lining where the clouds will roll away  
Darkness always present but it always goes away

Six AM your fear lies on your pillow  
And you dream of a girl by the lake and the wind through the weeping willow  
Doesn't seem all that long ago  
But it was in the light from the shade says its time to go  
But it was in the light through the shade says its time to go

See the silver lining where the clouds will roll away  
Darkness always present but it always goes away  
See the silver lining where the clouds will roll away  
Darkness always present but it always goes away  
Goes away

## **Inst**

Six AM your fear lies on your pillow  
And you dream of a girl by the lake and the wind through the weeping willow  
Doesn't seem all that long ago  
But it was in the light from the shade says it's time to go  
But it was in the light through the shade says it's time to go

See the silver lining where the clouds will roll away  
Darkness always present but it always goes away  
See the silver lining where the clouds will roll away  
Darkness always present but it always goes away
