FAST
FLIGHT ASSIST SAFETY TECH

Offering buoyancy assistance when submerged in water. F.A.S.T. allows riders to stay afloat, while rapidly draining water and self-inflating to assist the escape. Once out of freezing water the insulation works even when wet to keep body temperatures from dropping allowing time to seek shelter. Feel confident knowing you and your family are wearing life saving F.A.S.T.

Shelters

There are seven warm-up shelters situated along the Interlake Snow Trackers network. They are all open to the public, and have wood stoves and firewood for the enjoyment of others. We ask that you leave them as tidy as possible when you leave.

President's Message

We are a non-profit club whose mandate is to supply and maintain safe, groomed, and marked SnoPass trails and shelters for our region, which includes Hecla Island, Grindstone, Arborg, Riverton, Gimli, Winnipeg Beach, Fraserwood, Narcisse, and Petersfield.

In order to maintain our trails to the best of our ability, we rely heavily on our membership, volunteers, and supporter donations. And we have to say: WE HAVE THE BEST MEMBERSHIP, VOLUNTEERS, AND SUPPORTERS ANYWHERE!

To learn more about our club and our projects, or if you are interested in becoming a member, please check out our website at www.interlakesnowtrackers.ca or check us out on Facebook!

— Les Thoradson, Club President
