**TITLE: BROKEN WINGS DON'T MEND**

She drives her car fast at night  
Just to be closer to the stars  
The wind blows her hair  
That covers her scars

Broken wings don't mend  
They just bend

Free Fallin' in the darkness of night  
You still can't take flight  
Slow dance with me baby  
I'll bring you to the light

Broken wings don't mend  
They just bend

She lives in a world she didn't choose  
Leave the shadows behind

Let's drive tonight  
I'll fix your broken wing  
It'll be alright

Broken wings don't mend  
They just bend
