## **The Eyes of Loyal**

(Verse 1)

Three hearts, one bond, through thick and thin,  
A friendship forged where dreams begin.  
Through every storm, through every fight,  
We stood together in the darkest night.

But love has a way of weaving its thread,  
Between two souls where fate has led.  
A timeless spark, a bond so true,  
In the eyes of loyal, I see you.

(Chorus)

In the eyes of loyal, love won't fade,  
A vow unspoken, but always stayed.  
Through the years and the tears, we knew,  
Forever was waiting for me and you.

(Verse 2)

A beacon shining through the night.  
Love is a fire that never dies,  
Even when time dims the skies.  
A legacy written in every glance,  
In the eyes of loyal, we found our chance.

(Chorus)

In the eyes of loyal, love won't fade,  
A vow unspoken, but always stayed.  
Through the years and the tears, we knew,  
Forever was waiting for me and you.

(Bridge)

We may drift, but we never part,

Bound by the strength of a single heart.  
Friendship and love, a sacred line,  
Through every lifetime, you're always mine.

(Outro)

Three best friends, a story untold,  
Of bonds unbroken and hearts of gold.  
Love lives on, eternal and true,  
In the eyes of loyal, it's always been you.
