### Cover Letter

Hello, my name is Noah Morrissey. Per my resume, I feel as though I am qualified to work as a video game composer for your company because of my experience in music, my knowledge of theory and aesthetics, and most importantly, my abilities. Since hearing the music is the best way to judge for yourself, I encourage you to listen to my examples which are found on the portfolio website above. I look forward to hearing from you and thank you for taking the time to read this and consider me.

Best Regards,

Noah Morrissey
