SCOOPIE SPEC BROCHURE

ABOUT OUR SCOOPS

With our state-of-the-art tooling to design and manufacture plastic scoops of all shapes and sizes, we can deliver scoops that will help you with any measurement and give you accuracy where you need it the most.

Whether you have pharmacies that deliver critical measuring results in laboratories, protein powder that needs just the right dose or animals that need

the right amount of food, we can give you the scoop you need for the right results.

Providing fractional measurements that are innovating solutions for research and development.

Our manufacturing plant is food safety certified FSSC 22000 so you can be assured of your product's purity and keep your commitment to maintaining high standards with all our products.

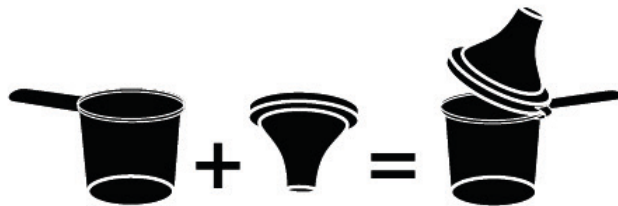

MULTI-PURPOSE MEASURING SCOOP WITH FUNNEL

- The Scoopie can be used as a standard measuring scoop for shaker bottles.
- The Scoopie can also be used as a scoop with funnel to pour powders into a water bottle.
- Hassle Free Innovation To Enhance Your Customers Experience With Your Brand.
- Avoid unnecessary powder spills at home, in your car and at the gym, along with the clean up required.
- Save time during gym prep and baby prep.

WHEN ONE SIZE DOESN'T FIT ALL

WE GOT YOU

Our scoops are the result of a proven manufacturing process, outstanding quality control, on-time delivery and down to earth pricing. We offer our customers more than 60 stock sizes of scoops. Clients can also customize their unique size, shape, colors and design to aid in branding. The Scoopie helps you get the scoop on your competition.

We're big enough to fulfill large orders, but small enough to react to our customers' needs. The Scoopie is ready to deliver scoops by the caseload or by the truckloads. Our responsiveness and personal relationships with our customers helps us identify what clients are using and where the market is going. Call us and let's work together.
