

OCCUPATION OF HUMANITY

"Parasitism is a form of power in which the subject lives at the expense of others while pretending to be an ally. It does not create, but it imitates. It infiltrates, seizes control, and replaces the original goal with its own benefit. It adapts to any banner, as long as it remains on top."

Currently, parasites and opportunists control the planet. Our ideologies have rotted; the noble causes of the past have been subverted and turned into tools for them to gain power.

From **every communist** party, to **every** fascist organisation, to every functioning government, parasitism persists. The rats do not believe in what they say.

The system crushes the sincerity of the past. Currently, it is but one big show being used to continue the political and economic occupation of Humanity.

This is is going to **kill all of us**, for there is:

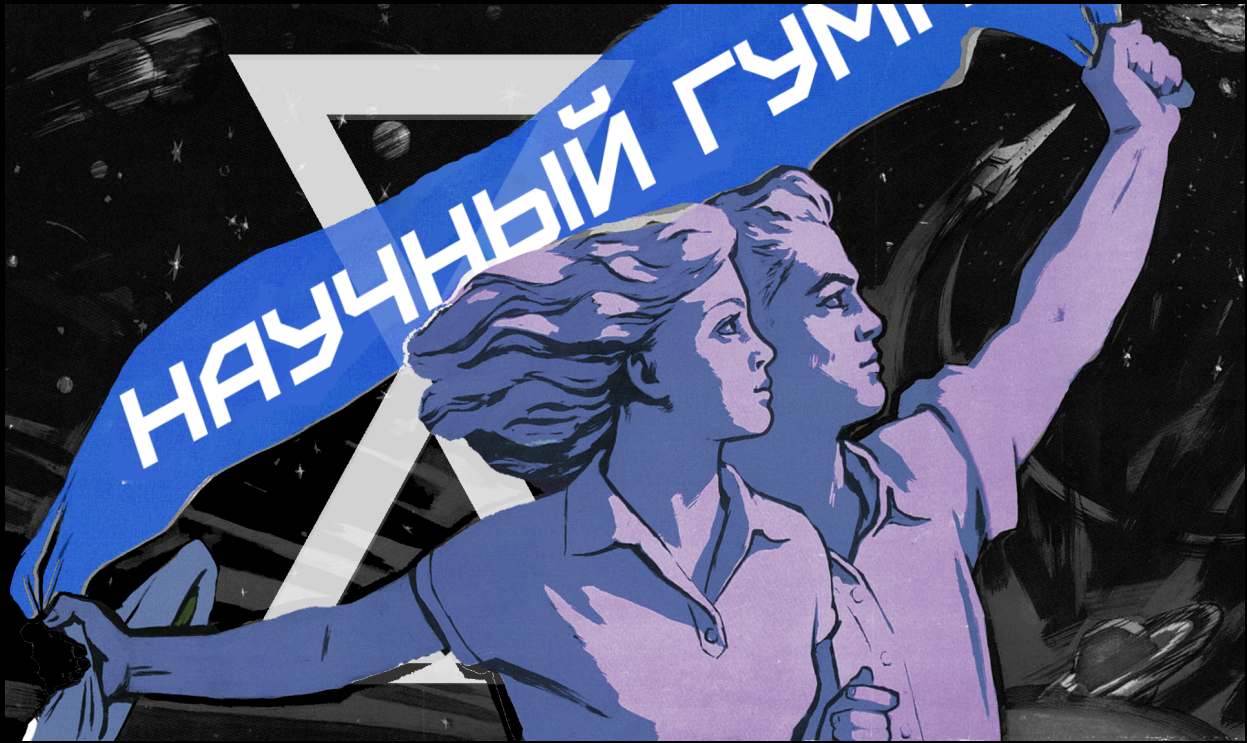

EXTINCTIONARY BIOWEAPONRY advancing.

NUCLEAR WEAPONS persisting.

ECOLOGICAL COLLAPSE worsening.

The conditions for a mass extinction are arising. **The parasites will continue until all of humanity goes extinct.**

RESIST PARASITISM!

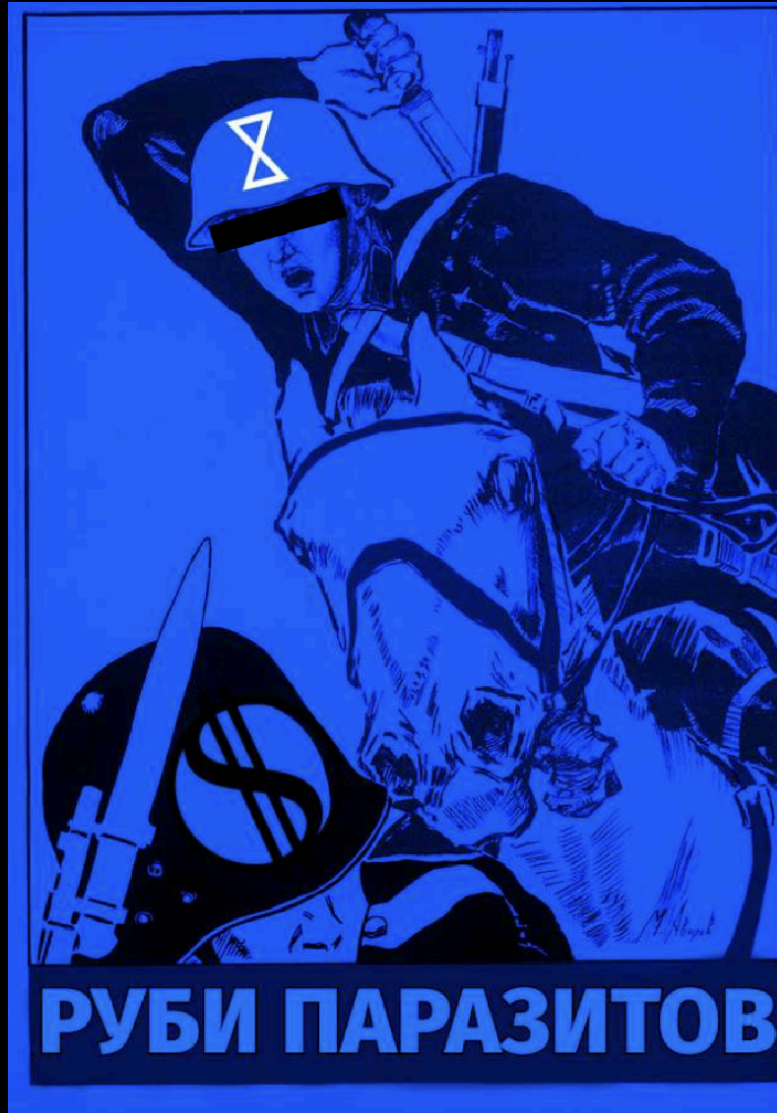

HUMANITY FIRST!

Resist false narratives implanted in your mind by
parasites!

The human must recognise the **true** interests of mankind,
and crush the **false** interests implanted by exploiters!

Stop believing in the political lie!

Stop being used as a pawn!

Only through a firmly unified vanguard, educated in the sciences of understanding our world's mechanisms, can we wage the cultural war needed to destroy parasitism in all of its forms.

Fight for the cause of the liberation of mankind!

Humanity is everything! The rest is nothing!
