FOR MASONS. FOR DESIGNERS. FOR ARCHITECTS. FOR

YOU.

TONY K.
MASONRY PROFESSIONAL

We have been working with Pangaea® Stone for many years now. We really love the character of each and every stone. With so many profiles and colors to choose from, my clients always find the perfect stone for their dream project! I love the GripSet® technology. High quality and high strength - you can't beat Pangaea® Natural Stone products!

SHIPRA S.
SHIPPING & LOGISTICS

I am constantly learning and I'm always supported in advancing my education. Pangaea® has been a great training ground and I'm always growing personally and professionally. My undergraduate degree has allowed me to utilize and advance my skills.

SANJAY N.
C.E.O.

My primary role has been to create a company structure of safety and security. This in turn has created a company culture with a high level of trust, motivation, and communication. I don't go to work to manage our people, they come to work to be inspired. I take care of our people, so they can take care of you.

SURESH C.
SENIOR SUPERVISOR

It never feels like I am working with co-workers. We all look after each other like best friends or close family members.

SARITA D. & SARITA S.
GROUNDS CUSTODIANS

I am always well respected and love coming to work, as we all treat each other very fairly.

I feel safe and secure at Pangaea® because we all work as a team. I am highly valued.

TRILOK Y.
HEAVY EQUIPMENT OPERATOR

There is no greater testimonial to a company's character than to have not only one son work in the same company, but have a second one that is eager to join. As a father, I could not be happier to know that my children's careers are secure.

SHAWNA C.

DESIGNER

Pangaea® screams natural beauty. The range of colors and formats make it first and foremost the #1 product we use in our designs. Interior or exterior, stone from Pangaea® is something that will never go out of style. It is timeless.

SITARAM S.

C.O.O.

Our company culture has changed what was a job into a passion. Pangaea® has positively impacted my life and my way of thinking. I feel very blessed to have an opportunity to make a difference.

BOSCOE

C.C.O.

(CHIEF CANINE OFFICER)

My life has been changed forever. I live in a home instead of on the streets and now every day is take your dog to work day.

MICK S. AND JEFF L.

CSI OPERATIONS MANAGER

& CSI PRESIDENT

What makes Pangaea® different is that it works! There are a few really simple ideas behind it that have been perfectly executed resulting in a product that does exactly what it claims, and exactly what its users require it to do.

ROB M. & KEVIN G.

C.O.O. & C.E.O. OF INSTONE

As a leader in the market, Instone partnered with Pangaea® because of the exceptional industry-leading product quality. This, coupled with the leadership in developing a product with the highest ethical standards...makes for an outstanding partnership!

AAYUSHI C.

ACCOUNTS

I have never worked with a company with such principles and ethics. I am well respected and always feel safe and secure in our environment.

CARMEN N.

C.F.O.

Our Pangaea® family is continually striving to deliver products that we can be proud of and that our customers can enjoy for years to come.

REAL PEOPLE. REAL IMPACT. REAL STONE.

Our manufacturing facility in India adheres to ethical work practices, a clean and safe working environment and provides fair living wages. We minimize our environmental impact with revolutionary recycling methods. We lead by example so others may follow. This translates to a better product that our channel partners and Canadian and US customers can support in good conscience.

We create community partners in local villages by investing profits to enhance access to education through rebuilding and expanding public schools. We create scholarship programs to empower girls and young women in order to break down gender and educational barriers. We support local animal shelters and provide animals with food, medicine and unconditional love.

We use state-of-the-art technology and merge it with highly skilled stone artisans to create an extraordinary product. We provide 22% more stone that has been cut, tooled, trimmed and fit to make it Installation Ready™. Our proprietary GripSet® Technology creates a way to make the back of our stones easier to adhere so you can ensure they stay in place. We are all about consistency and predictability.

INTRODUCING THE STONE.

LET'S GET ACQUAINTED.

Have you ever heard of the Messner List? It's a popular list among mountaineers, naming the highest peak on each of the seven continents, which to some, becomes a challenge to test their limits. Elite climbers from around the world attempt to summit all seven in one year, a challenge made popular by adventurer Reinhold Messner. These mountaineers are from different continents and speak different languages, but all push themselves beyond their limits with the same goal in mind. And do you know what ties every one of these prestigious climbers together? The view from the top. Seven views, from seven different mountaintops. But if you are not an elite mountaineer or a world class climber trekking around the earth, don't worry. We can bring the view to you. Seven views to be exact. Pangaea® Natural Stone provides you with seven stone profiles to choose from so that you can have your very own mountain top experience.

INTRODUCING

P A N G A Æ A®
A R C H I T E C T U R A L
Æ L Æ M Æ N T S

**WHETHER YOU ARE LOOKING TO SUBTLY BLEND IN
OR BOLDLY STAND OUT, IT'S THE LITTLE THINGS
THAT MAKE ALL THE DIFFERENCE.**

Pangaea® offers an array of finishing products that are more detailed than a packet of instructions for self-assembly furniture (and we're easier to use too). From watertable sills to trimstones, our architectural elements add that final touch that gives that "I can't quite put my finger on what it is about this, but man that looks incredible" feeling. It's that final coat of lipgloss, that perfectly fluffed pillow, that straightened picture frame, that foam on top of a latte.

WATERTABLE SILLS
ARE DEPENDABLE
LIKE YOUR FAVORITE
RAIN JACKET

with WestCoast® Watertable Sills*

PANGAEA®
ARCHITECTURAL
ELEMENTS

WATERTABLE SILLS

A necessary component for proper moisture management, Pangaea® watertable sills are specifically designed for use at the top of a stone wainscot and are designed with a drip edge for water runoff.

WATERTABLE SILL 34"

finish: *Natural*

length: 34" (864 mm)

width: 3" (76 mm)

thickness: 2" (51 mm)

colors: *Cambrian & Tuscan*

WATERTABLE SILL 18"

finish: *Natural*

length: 18" (457 mm)

width: 3" (76 mm)

thickness: 2" (51 mm)

colors: *Black Rundle & WestCoast®*

TRIMSTONES & KEYSTONES

Offering tremendous design flexibility, Pangaea® Trimstones and Keystones can be cut or shaped to conform to any arch radius making them the perfect finishing touch for door and window treatments.

TRIMSTONE 8"

finish: *Natural*

length: 8" (203 mm)

width: 6" (152 mm)

thickness: 1 1/2" (38 mm)

colors: *Black Rundle,
Cambrian & Tuscan*

TRIMSTONE 9"

finish: *Natural*

length: 9" (229 mm)

width: 5" (127 mm)

thickness: 1 1/2" (38 mm)

colors: *Black Rundle,

finish: *Textured*

length: 84" (2,134 mm)

width: 24" (610 mm)

thickness: 2" (51 mm)

colors: *Cambrian & Tuscan*

Black Rundle Castlestone

**PANGAEA® IS SYNONYMOUS WITH
RELIABILITY AND CONSISTENCY.**

Over the past 15 years we have consciously re-imagined, re-evaluated and re-tooled our approach on how to continually create value. We have delivered real world solutions to real world problems. We are insanely focused on delivering the highest value from the products we manufacture to the communities we serve. This purpose is what continually fuels our passion.

PANGAEA® COMMERCIAL IS

DIFFERENT

We could start nerding out and use words like thermal mass, silica composition and discuss freeze-thaw cycles. We could talk about gravity loads and building envelopes, but we don't want to bore you with the details.

Just know, we've thought about all of it, so you don't have to. We've got your back so you can stress less and concentrate on beauty and design.

HEY MASONS,

WE'RE BETTER!

100

percent product yield. Because we are insanely focused on our packaging procedures. Isn't it nice when things are what they say they are?

4

steps in our packaging process. We cut it, tool it, trim it and fit it so you don't have to.

20

grooves on the back of Mike B.'s Castlestone (left) making it stick easier and ensuring it stays in place. It's our proprietary technology. We call it GripSet®, only from Pangaea®!

EXCLUSIVE GripSet® TECHNOLOGY

YOU COUNT ON MAKING IT STICK.

WE HELP YOU WITH THAT.

Professional masons told us the saw cut smooth surfaces of natural stone veneers are harder to attach and more time consuming to install than manufactured stone veneers which have rough surfaces. With this problem in mind, we went to work and found a solution. We call it GripSet®. GripSet® creates a non-slip surface on the back of each stone allowing mortar to penetrate the stone, creating a much stronger bond with the vertical surface. Mortar not only mechanically bonds to the wall, but also our stone veneers through the GripSet® process.

This translates to a higher quality install with time to spare.

WE HAVE MORE LAYERS

THAN A FRENCH PASTRY

At Pangaea® Natural Stone, we have handcrafted many veneer stone variations to help make your design impeccable. Because we're the experts, we also hand-pack your stone veneers, ensuring that every layer has been tooled for a perfect fit, has the perfect quantity and the best color and size variations so your stone is delivered Installation Ready™. To top it off, each layer of each crate is formulated for consistency and predictability. But we don't stop there. We have so many more layers for you to uncover. Take a look at our magazine for an editorial look into Pangaea®'s approach to transforming your home while changing the world.

TO PUT IT IN PERSPECTIVE FROM
THE VERY BEGINNING,

WE ARE PROUD.

Over fifteen years ago we started a little stone company and made the conscious decision to keep our base in our native country of Canada and work with our neighbors in the USA, while establishing the heart of our company in our ancestral country, India. We did so knowing that we could make a difference there. We could celebrate a distinguished culture, while providing safe working conditions, fair wages, and equality. We have been doing that for over fifteen years and do you know what's happened? We have multiple generations of families working together with us. We watch our new employees flourish in their jobs which has allowed them to buy their first homes. We watch positive co-worker relationships being formed, no matter the age or gender. We see an unparalleled work ethic from the floor sweepers we depend on to keep our working areas clean, all the way to our management team who perfect our processes.

PANGAEA® ELEMENTS & DISTINCTION

WestCoast® Fieldstone

You probably want to see us again. Check out our Pangaea® editorial magazine online or in store. We're also at PangaeaNaturalStone.com, or find us on instagram if you're just here for the eye candy.
