P-CWL2

SAFETY DATA SHEET

DATE: JANUARY 1, 2026

PETROCHEM – CHEMICAL WASH LIQUID 2 (OIL-BASED)

1. IDENTIFICATION

Product Code: P-CWL2
Product Name: Chemical Wash Liquid 2 (Oil-Based)
Recommended Use: Chemical wash additive for oil-based and synthetic-based drilling fluid removal in oilfield cementing pre-flush and spacer systems
Manufacturer: PETROCHEM USA, INC.
Address: 13921 SW 97 Avenue, Miami, FL 33176 USA
Telephone: 305-439-4747
Emergency Contact: CHEMTREC 1-800-424-9300

2. HAZARDS IDENTIFICATION

Classification:
Eye Irritation Category 2A

Signal Word: WARNING
Hazard Statements:
Causes serious eye irritation

PRECAUTIONARY STATEMENT(S):
Prevention:
Wash thoroughly after handling
Wear eye protection
Avoid release to the environment
Response:
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing
If eye irritation persists: Get medical advice/attention
Storage:
Store in a cool, dry, well-ventilated area. Keep containers tightly closed
Disposal:
Dispose of contents and container in accordance with applicable local, regional, and national regulations
HNOC:
Spilled material may create a slipping hazard

3. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name: Proprietary Mixture
CAS Number: Trade Secret
Composition: 100%
Notes: Specific chemical identities and concentrations are withheld under OSHA 29 CFR 1910.1200(i).

4. FIRST AID MEASURES

Inhalation: Move person to fresh air. Seek medical attention if symptoms develop.
Skin Contact: Wash with water. Remove contaminated clothing if necessary. Seek medical attention if irritation persists.
Eye Contact: Rinse cautiously with water for at least 15 minutes. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical attention if irritation persists.
Ingestion: Rinse mouth. Do not induce vomiting unless directed by medical personnel. Seek medical advice if symptoms occur.
Symptoms: Eye irritation. Prolonged or repeated contact may cause mild skin irritation.
Physician: Treat symptomatically.

5. FIRE-FIGHTING MEASURES

Extinguishing Media: Water spray, foam, dry chemical, or carbon dioxide.
Specific Hazards: Product is not expected to present a fire hazard under normal conditions. Thermal decomposition may produce carbon oxides and irritating fumes.
Firefighting Equipment: Use self-contained breathing apparatus and full protective gear when fighting chemical fires.

6. ACCIDENTAL RELEASE MEASURES

Procedures:
Wear appropriate personal protective equipment. Contain spill if safe to do so. Absorb with inert material and place in suitable labeled containers for disposal. Avoid discharge to drains, soil, sewers, or waterways. Spilled material may create a slipping hazard.

7. HANDLING AND STORAGE

Handling: Avoid contact with eyes. Avoid prolonged or repeated skin contact. Avoid breathing mist or aerosol. Use good industrial hygiene practices. Wash thoroughly after handling.
Storage: Store in a cool, dry, well-ventilated area. Keep containers tightly closed when not in use. Protect from extreme heat and incompatible materials.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: No specific exposure limits established for mixture components.
Engineering Controls: General ventilation is normally sufficient. Use local ventilation if mist, vapor, or aerosol may be generated.
PPE:
Eye Protection: Safety goggles or face shield
Skin Protection: Chemical-resistant gloves
Protective Clothing: Use suitable protective clothing to minimize skin contact
Respiratory Protection: Not normally required under intended use. Use approved respiratory protection if ventilation is inadequate or mist/aerosol exposure occurs
Hygiene: Wash thoroughly after handling. Do not eat, drink, or smoke when using this product

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Liquid
Color: Clear amber
Odor: Mild
pH: Not available
Solubility: Soluble in water
Specific Gravity: 1.01
Flash Point: Not applicable; aqueous-based product

10. STABILITY AND REACTIVITY

Stability: Stable under normal handling and storage conditions.
Conditions to Avoid: Extreme heat and incompatible materials.
Incompatibility: Strong oxidizing agents, strong acids, and strong bases.
Hazardous Decomposition Products: Carbon oxides and irritating fumes may be generated during thermal decomposition.
Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Routes of Exposure: Eye contact, skin contact, ingestion, inhalation of mist or aerosol.
Acute Effects: Causes serious eye irritation.
Skin Effects: Prolonged or repeated contact may cause mild irritation.
Inhalation Effects: Mist or aerosol may cause respiratory irritation.
Ingestion Effects: May cause gastrointestinal discomfort if swallowed.
Chronic Effects: No known chronic effects under normal conditions of use.
Carcinogenicity: Not classified.

12. ECOLOGICAL INFORMATION

Ecotoxicity: Not classified as hazardous as supplied; may be harmful to aquatic life at high concentrations.
Persistence and Degradability: No mixture-specific data available.
Environmental Impact: Avoid release to soil, drains, sewers, and waterways.

13. DISPOSAL CONSIDERATIONS

Disposal: Dispose of product, residue, and containers in accordance with applicable local, regional, and national regulations. Do not discharge untreated material into drains, sewers, or waterways.

14. TRANSPORT INFORMATION

DOT: Not regulated
IATA: Not regulated
IMDG: Not regulated

15. REGULATORY INFORMATION

Compliance: Complies with OSHA Hazard Communication Standard, 29 CFR 1910.1200
TSCA: All components are listed on or exempt from TSCA

16. OTHER INFORMATION

NFPA: Health 1 | Flammability 0 | Reactivity 0
Revision Date: January 1, 2026
