

# P-NFP

## PRODUCT DATA SHEET

1/10/22

### P-NFP (PETROCHEM - NO FOAM POWDER)

#### TECHNICAL DATA

- P-NFP is designed for use in slurries that present foaming problems. It is most compatible with all classes of cement, cement extenders & cement additives, (they also do not change the slurry properties or the quality of the set cement).
- P-NFP is designed to be blended with the cement, dispersed thoroughly in the water before mixing begins or directly to the slurry as needed.

#### PROPERTIES

- Appearance: Light Brown/Tan (Powder)
- Specific Gravity: 1.99
- Temperature Range: No Limit

#### RECOMMENDED TREATMENT

- P-NFP is normally used at concentrations of 0.2% BWOC however in some slurries a higher concentration may be necessary.

#### PACKAGING

- P-NFP is packaged in 40x50 lb. Sacks per Pallet.

#### SAFETY

- Read the SDS before use.
