Summary:

We have listed many of our services that **NO** other guitar instruction schools in Canada provide and used the **2 major schools** that provided the most for your money and compared them both to Guitar Garage instruction. The differences are clear.

One other thing, the other schools include in their 30-minute time frame is, homework, **we do not include homework during your lesson; we send it out AFTER MP3's music, tabs. This will usually include one complete EXTRA lesson for each student per week! Nobody does this but Guitar Garage.** Sometimes, students may really struggle, and we address them directly. We walk students through their homework with MP3's we have just recorded for that student, this can take up to an extra hour of work which we do not charge a dime for; it is part of the program. Theory is broken down as each student can absorb it.

Pricing- \$70.00 per 1 hour lesson, paid in blocks of 4 lessons.

Cancellations- As we know that life happens, we feel that **24 hours** is a fair time for a cancellation. If you call and give 24 hours, you will not be charged anything. If you are ill or a student who has just had a horrible day at school and can't come to a lesson, you will not be charged if you call us at least 30 minutes before your lesson. **If you just do not show up or do not call or email,** you will be charged for that lesson.

We believe this is more than fair. Vacations of course there is no charge, and we would only need 24 hours on that as well.

Lesson Time – 60 minutes plus homework emailed to you after your lesson, NOT during. We send out a ton of material, MP3's, PDF music, tabs and more to our students and we like you will be ready to go when your lesson time starts. It is up to the student to do the homework provided. When MP3's with instructions are sent out, they will be expected to be done for the next lesson or whatever has been discussed and agreed on. **Summary /homework-** As we have been teaching professionally for over 25 years All students must do at least 1 hour of practice a week.

If a student continually does not do any homework without a reason, school, work, sick, holidays, etc. whether they are 8 or 80 years old, we will talk with them or their parents. Teaching over 5,000 students from age 7-88, we have only let 6 or 7 go because of a complete lack of effort. We make every effort to give 100% to each student every lesson, we expect our students to do at least the minimum if not more.

- Since opening we have had **98%** of students with us for 1-5+ years. For more information, please
