

Momentum Worship Event Overview

Helping Churches Navigate Worship Transitions with Purpose and Clarity

Momentum Worship Events (WME) are crafted to support churches during seasons of transition—especially when seeking their next worship leader or pastor. These weekends bring encouragement, insight, and renewed momentum to congregations through meaningful worship, biblical teaching, and collaborative conversation.

Each WME includes:

- **“Worship Is” Session**
A biblical and engaging presentation on the true heart of worship. This session includes live worship, teaching, and a time for Q&A with the congregation.
- **Congregational “White-Board Session”**
A guided conversation where church members explore:
 - What’s going well?
 - What could be improved?
 - What should be added—or released—in the church’s worship life?
- **Sunday Morning Worship Leadership**
Guest leadership for Sunday morning worship, with elements drawn from Saturday’s discussions to reflect the heart of the congregation.

Optional Enhancements Include:

- **Worship Leadership Panel Discussion**
Insightful dialogue with seasoned worship pastors on planning, evaluation, and congregational edification.
- **“Singing Congregation” Session**
A biblical call to congregational singing, paired with hands-on teaching of new hymns and worship songs.

- **Guest Worship Team**

For churches wishing to give their own team a rest, BiVo can provide a full band—including instrumentalists and vocal leaders—for Sunday morning worship.

WME is not a concert. It's a catalyst.

Let's move forward with clarity and unity—together.
