Capstone Mushroom Wholesale Agreement Form

Thank you for choosing Capstone Mushroom! We are thrilled to work with you and are looking forward to providing your farm with the highest quality mushrooms grow blocks and/or spawn.

How it works:

You will receive a weekly, bi-weekly or monthly email and/or text that will act as a reminder to place your exact order in terms of varieties and quantities needed. Orders are due Monday by noon and will be sent out the following week on your set delivery day. If we don't receive an alteration to the standing order then the previous week's order will be delivered as scheduled.

Delivery rates:

Shipping and Handling is not included in the price.

We will custom make you a quote depending upon:

- A) Location
- B) Quantity

In store pick up is always FREE.

How invoicing works:

We will collect your bank card information and automatically charge your card depending on your contract (weekly, bi-weekly, monthly). You will be on an automatic payment/shipping system. We will ship out according to your order. If there are any changes to your order or contract status, contact us via email or phone (757)698-6187 and we will alter your order accordingly. All invoices must be paid in full before we send out another order. If the invoice goes unpaid past the due date then we are liable to cease delivery until the invoice is paid.

A few things to note:

* Cultivating mushrooms is a process that involves many moving parts: timing and sufficient supplies are two of the biggest factors. Therefore, when supplying a new farm, it may take several weeks to complete the entire process for your first order to be fulfilled. Please be assured that when you agree to receive fresh mushrooms blocks from us, we will begin to cultivate the appropriate amount of your chosen varieties and give you an estimated time of when your first order will be ready. After that, our farm will be in full routine to provide your order either weekly or biweekly.

* After working with many farms, we have found that we must ask each farm to receive grow blocks or spawn for an agreed upon period of time. This allows us to give you consistency for your menu and ensures that we do not produce excess product and lose or waste time and supplies. Thank you
