

# Missional Technology Resourcing Guide

Northern Presbytery Mission Fund September 2020

## Resourcing Purpose

Northern Presbytery Mission Fund Committee (MFC) mission is to strategically consider how allocated funds for missional technology can be utilised to extend the spread of the Gospel and engage with the Community.

## Our Resources

The financial resources currently held by Northern Presbytery available for funding missional technology are allocated by full Presbytery as part of the budget approval process. The approved amount is up to \$50,000 in combined total for all proposals received and approved during 2020/21 financial year.

## Resourcing Priorities

Support will be in the form of grants to provide for:

- The support of churches to enhance their use of technology
- The equipping of churches to operate permanently in the digital world
- The support of relationship between the church and its wider community.

Generally, the missional technology funding is for pre-packaged technological materials, technical advice, training, and networking resources that will **grow and deepen the life and influence of a worshipping community and its witness to Jesus Christ within the digital context.**

## Resourcing Criteria

- A project will be expected to find some of the money locally or obtain grants from other Christian and/or community sources where possible. This helps the MFC to be confident that there is ownership of and commitment to the project from the applicant community.
- A congregation will be expected to have received professional advice and shared wisdom when exploring possibilities and suggestions to purchase technology. This helps the MFC to be confident that the proposal will fit the church's situation, and budget.

Date of Application: \_\_\_\_\_

# Northern Presbytery Missional Technology Application Form

September 2020

## Applicant Information

Name of Church	
Name of Contact Person	
Email	
Telephone	
Postal Address	
Amount applied for
