

Peter Ngo Script:

Five Core Points to Peter Ngo's script:

1. What Do you understand about Stem Cells?
2. What if I could activate your Stem Cells for less than a cup of coffee?
3. This is how it works: Make Analogy of how a young person repairs vs how an old person repairs:

Let's say your grandmother injures her ankle will she repair as fast as her grandchild? The answer is no because grandmas stem cells do not go to her injury anymore and repair it the same way her grandchild's does. It is amazing that young stem cells when put on old tissue turns that tissue young. What is going on with you?

4. I will send you the link: send them: (startx39.com) and if u like what you see I will send you some sample patches my gift. Just text me your address:

Or patch them and say I will give you a few samples to try my gift: give them an envelope: and say I will send you a link: (send them startx39.com) so you can better understand what you are wearing.

5. Remember it takes 90 days to get full repair so most people get the silver pack or 3 sleeves for \$299 to give it a good try. There is a 30 day money back guarantee so you can get a full refund if at day 25 you do not see some benefit.
