To: All Saskatchewan Skin & Scuba Diving Instructors

The Saskatchewan Underwater Council is beginning an Instructor Roster project which involves listing all SUC member diving instructors no matter which certifying agency they represent. The roster will be housed on the SUC website and every effort will be made to keep it current.

The purpose of the roster is to identify leadership resources in the diving community in Saskatchewan. Individuals will be able to locate an Instructor for their purposes. Clubs will be able to find resource people for their particular project or event. Instructors will be aware of others with a particular skill set to match their purposes. Dive shops can increase the breadth and depth of their staff. Communities will be able to locate resources to help with their programs. The SUC will improve its outreach significantly.

The roster will also have the benefit of increasing the Council's awareness of the numbers of instructors in the province and their distribution and availability which will reflect well in the eyes of those who dole out grant money. It will be a resources list for the Council and the dive community at large.

The Instructor Roster is a free service to all current members of the SUC and will be updated regularly with the information provided by the individual Instructors. There is provision in the database for seventeen certifying agencies but more can be added.

To be listed Instructors need only complete the fillable PDF form available on the SUC website and Facebook page and return it to the Council. The Council will then see that the information is posted.

The SUC encourages all Instructors to list themselves in this new endeavour to benefit all divers in Saskatchewan. If you have any questions please address them to executive@saskuc.com.

Thank you,

Justin Rings
President
