

# MUNITORUM FIELD MANUAL

VERSION 1.1

Welcome to the Munitorum Field Manual. This document contains the most up-to-date points values that should be used in your games, covering all the factions in Warhammer 40,000.

You can use this document to determine the points (pts) value of each unit in your army. Each entry lists the increments to a unit's size that incur different points costs. This may change with the addition of each individual model (e.g. 1 model, 2 models, 3 models, etc.) or it may be presented with a lower and upper limit to a unit's Starting Strength (e.g. one cost for 5 models, another cost for 10 models). In the latter case, your units can contain a number of models in between these limits, but you must still pay the maximum points cost for a unit

that starts the game with more than its minimum number of models. You can learn more about using points to muster your army on pages 55-56 of the Core Rules.

This document lists the points values for every unit that, at the time of publication, is supported for Warhammer 40,000 – including those available from Forge World – and these replace any points values published previously. It will be updated periodically to reflect the latest publications and to support game balance. New and revised entries are marked in **red**.
