

Little Book of

# ANIMAL TRACKS

An **animal track** is an imprint left behind in soil, mud, snow, sand, or other type of ground by an animal that walked across it. Animal tracks are used by hunters to track animals and by scientists and nature lovers to identify the types of animals that live in an area.

**Raccoon Track**

**Mouse Track**

**Rabbit Track**

**Fox Track**

**Deer Track**

**Hedgehog Track**

**Squirrel Track**

**Chipmunk Track**
