

Our mission...

To provide quality building materials, expert knowledge and exceptional service to our distribution partners, architectural/specification community and contractors/installers. We follow the "Golden Rule" of treating others as we would want to be treated. Our business model is to obtain and develop long-term, business relationships, using honesty and integrity, while taking care of our partners and our mutual interests.

FLEX ROOFING SYSTEMS is an expert source manufacturing quality thermoplastic single ply roofing systems since 1988 with over 250 million sf. installed. Everything you need for a low slope, single ply roofing system, edge to edge, from the deck up.
