☆☆ Rolling Boxcar Updates ☆☆

Bieber Station is Coming Alive

So work is rolling along at Bieber Station. All the concrete forms are built just waiting for the go ahead from Lassen County Planning Commission and we will see them on Oct 7th. The steel trusses have been built and Dan Clatt, owner of InterMountain Maint here in Fall River Mills has donated himself and his crane to set them in place. The ridge will be 19 feet in the air so RBC will have lots of headroom to be lifted and the subframe installed underneath. The 80' x 25' "hanger" floor will probably be compacted road base as funds won't allow us to pave or pour cement at this point. The 4 shipping containers will be for storage, a small "clean room" shop for electrical work, a small office and a larger "dirty" shop for welding and steel fabrication.

Rolling History to the Vets Who Helped Make It

The steel building kit we bought is just the cover over the open bay from one 80' row of containers to the other. We will still have to build the end wall at the back of the hanger and the two big barn

style doors at the front. We have had a lot of visitors here and the town is a buzz about the "airplane project". It will be nice to get rolling on RBC again after searching for the right property, the big move and now a building. BUT!!! It's all moving forward to the day RBC is on the road. Thanks to all our members for having faith in us to get-r-done. We have a long way to go but every day we get closer.

RBC T shirt sighting in Mar Del Plata, Argentina

Iren Demarco is the daughter of RBC's Secretary Claudia Andrade Will and step daughter to RBC's President John Will. She is showing off the Argentina flag and her cool RBC t shirt out front of her home in Mar Del Plata.

Bus door

Emergency Door from demolished school bus. It would look great in your garage or man cave. Contact john@rollingboxcar.com

100% of the sell price goes to the nonprofit group Rolling Boxcar.

\$250.00

Buyer must pickup in McArthur CA.
