*Supporting Success*

Iain Colquhoun  
SCOTIA DRILLING CONSULTANTS LTD

## COMPANY OVERVIEW

Scotia Drilling Consultants is an independent company specialising in the provision of expert support to the global drilling industry. With over 70 years of collective experience, we are well equipped to meet our clients' needs through bespoke consultancy services.

We collaborate with a network of industry partners specialising in key areas such as health and safety, subsea equipment, equipment sourcing, drilling systems design and manufacturing, and decommissioning activities.

With a strong focus on customer needs and cost efficiency, we deliver fit-for-purpose solutions that drive meaningful improvements and cost reductions, all without compromising quality or safety.

## OPERATIONAL SUPPORT

Scotia Drilling's team brings extensive expertise in offshore and onshore rig management, backed by over seventy years of collective experience in senior leadership roles within international drilling contractors.

Our deep industry knowledge allows us to understand the complexities of drilling operations and deliver solutions that align with our clients' operational goals.

Our client-focused approach ensures flexibility in service delivery, tailored to meet the unique needs of each project. We offer a comprehensive range of services, from complete rig management solutions to specialised support for individual positions. Whether providing end-to-end management or supplementing existing teams, we adapt to bolster management structures, even in the most remote and challenging locations.

## RIG COMPLIANCE AND VERIFICATION

Scotia Drilling Consultants has a deep understanding of the challenges faced by drilling contractors and rig contracting parties, acquired through years of vast industry experience. We recognise the critical importance of compliance and verification in ensuring safe, efficient, and cost-effective operations.

We offer a comprehensive range of compliance and verification services, tailored to meet the diverse needs of our clients. Our services span from internal policy and procedural compliance assessments to full regulatory compliance audits and verification activities.

We add significant value through independent verification of policies and procedures, providing objective insights that help strengthen internal standards.

WITH SCOTIA DRILLING  
CONSULTANTS YOU DON'T  
JUST GET A PROJECT  
MANAGER, YOU GAIN A  
PARTNER INVESTED IN  
YOUR SUCCESS

## SHIPYARD PROJECT MANAGEMENT

Scotia Drilling Consultants have decades of in-house project management experience, strengthened by our network of trusted external partners. Together, we provide our clients with a robust and highly competent project management teams, capable of delivering successful outcomes across a wide range of project scopes.

We take project goals personally, treating each objective with the same dedication and commitment as our clients. From the front-end definition stage, through budgeting and scheduling, to concept development and final execution, we work in close partnership with our clients to ensure alignment at every phase.

Our collaborative, client-focused approach, combined with our substantial technical expertise, ensures that projects are delivered on time, within budget, and to the highest standards of quality and safety.

THE DIFFERENCE  
BETWEEN ORDINARY AND  
EXTRAORDINARY IS THAT  
LITTLE EXTRA

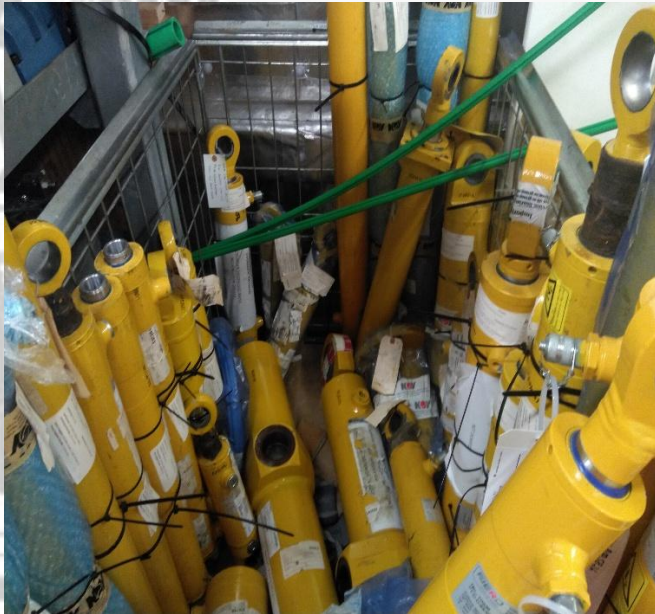

## OPERATIONAL ASSESSMENTS

Scotia Drilling Consultants management team are all seasoned Rig Management professionals with International Drilling Contractor experience.

We offer a wide range of operational focused consultancy services. We remain flexible and discreet in our work, working with clients we gather the information which allows us to provide a road map for scope execution, with clear deliverables set to meet our clients' expectations.

We don't only identify the underlying issues; we believe that we are there to support the solutions and the ultimate success of our clients.

AN INDEPENDENT REVIEW OF  
THE MANAGEMENT SYSTEM  
AND PROCUREMENT  
ACTIVITIES DELIVERS  
SIGNIFICANT VALUE

## OPERATIONAL EXPENDITURE

Scotia Drilling Consultants understand that expenditure is regularly monitored and assessed by rig owners and operators.

We provide a service where we independently carry out the in-depth assessment of OPEX and MAJEX expenditure for drilling operations.

Our aim with this consultancy service is to provide a transparent, independent review of individual asset expenditure through to operating area expenditure.

This approach delivers an unbiased review of cost control and P&L management which we believe brings significant value to our clients.

## RIG INTAKE SUPPORT

Scotia Drilling Consultants understand the challenges faced during the Rig selection and intake process; both Drilling Contractors and Contracting parties have significant work in meeting internal obligations. Scotia Drilling Consultants offer multiple consultancy services geared around supporting clients through this process.

Our Rig Inspection and Verification Surveys, Operability Assessments along with our Technical and Commercial Assessments provide our clients with an independent overview of their options.
