**Time:** 12:00–1:00 PM

Please join us for a presentation to learn about Washington Saves, a new state-facilitated retirement savings program launching in July 2027.

State law will mandate certain employers to make Washington Saves available to their employees if they don't offer a qualified retirement plan.

Participants will:

 **Learn how the program works**, including key compliance requirements, and alternative retirement plan options; *and*

 **Explore ways to stay connected as the program develops**, including opportunities to be a part of a pilot in early 2027.
